No. 478

August 15, 1955

Issued semi-monthly by the Texas State College for Women at Denton, Texas. Entered December 17, 1917, Denton, Texas, as second class matter under Act of Congress, August 24, 1912.

College Calendar

1955-1956

FIRST SEMESTER

September 19, Monday	8:30 a.m.	General Faculty Meeting
	9:30 a.m.	Orientation (All new students)
	1:00 p.m.	Good English Test
	2:30 p.m.	Orientation (All new students)
September 20, Tuesday		
21, Wednesday	8:30 a.m.	Registration
September 22, Thursday	8:15 a.m.	Classes Begin
November 23, Wednesday	12:15 p.m.	Thanksgiving Holidays Begin
November 28, Monday	8:15 a.m.	Classes Resume
December 16, Friday	12:15 p.m.	Christmas Holidays Begin
January 2, Monday	8:15 a.m.	Classes Resume
January 28, Saturday through		
February 3, Friday		Final Examinations
February 5, Sunday	3:00 p.m.	Mid-Winter Commencement

SECOND SEMESTER

February 6, Monday through		
7, Tuesday noon	8:30 a.m.	Registration
February 8, Wednesday	8:15 a.m.	Classes Begin
March 29, Thursday	12:15 p.m.	Easter Holidays Begin
April 3, Tuesday	8:15 a.m.	Classes Resume
May 26, Saturday through		
June 1, Friday		Final Examinations
June 4, Monday	9:00 a.m.	Commencement

FIRST TERM, SUMMER 1956

June 6, Wednesday	8:00 a.m.	Registration
June 7, Thursday	7:00 a.m.	Classes Begin
June 9, Saturday		Classes Held
July 4, Wednesday		Holiday
July 12, Thursday through		
13, Friday		Final Examinations

SECOND TERM, SUMMER 1956

July 16, Monday	8:00 a.m.	Registration
July 20, Friday	7:00 a.m.	Classes Begin
August 18, Saturday		Classes Held
August 21, Wednesday through		
22, Thursday		Final Examinations
August 24, Friday	9:00 a.m.	Commencement

Board of Regents

REAGAN HOUSTON III, San Antonio, Chairman
ED GOSSETT, Dallas, Vice-Chairman
MRS. EDGAR DEEN, Fort Worth, Secretary
MRS. CHARLES F. ASHCROFT, Sulphur Springs
R. H. COFFEE, Vernon
GRAHAM DEASON, Henderson
J. T. JOLLEY, Clarksville
MRS. JOHN T. JONES, Jr., Houston
MRS. NELDA C. STARK, Orange

Officers of Administration

JOHN A. GUINN, Ph.D., President
VERNON L. WHARTON, Ph.D., Dean of the College,
Dean of the Graduate School
MARY HUFFORD, Ph.D., Dean of Women
FRANCIS W. EMERSON, M. A., Dean of Admissions,
Registrar
PAULINE BEERY MACK, Ph.D., Dean and Director of
Research, College of Household Arts
Sciences
FAYE PANNELL, M.A., Dean and Professor,
College of Nursing
IVAN L. SCHULZE, Ph.D., College Librarian
L. L. LaRUE, B.B.A., Comptroller
FRANK D. FULLER, Business Manager
GERALDINE SHIRLEY, M.D., College Physician

General Information

THE COLLEGE

The Texas State College for Women, a multi-purpose institution created by an act of the 27th Legislature in 1901, formally opened its doors to students September 23, 1903. Having observed its Golden Anniversary, the state's university for women combines the wisdom of maturity with the vigor of youth. Its traditions, exemplified in the unswerving loyalty of more than 50,000 alumnae, are rich and fully developed. But it continues in the role of pioneer, having already amassed a record of approximately fifty significant "firsts" in the history of higher education in Texas.

Government of the College is vested in the Board of Regents, consisting of nine members nominated by the Governor and confirmed by the Senate of the State Legislature. At least four of the nine members must be women.

The aim of the Texas State College for Women is to provide superior educational opportunities for its students in an environment adapted to their distinctive requirements as women destined for the important responsibilities of living as well as leadership in a society growing daily more complex. The resources of the institution are, therefore, mobilized at all times to meet a diversity of individual and group needs, whether in liberal arts or in technical areas. The program also emphasizes strongly the elements which unify while they enrich, for the benefit of all students, the total educational effort of the College.

Over and above its general mission of developing women who combine such characteristics as competence and charm, culture and self-reliance, enthusiasm and poise, character and tolerance, Texas State College for Women recognizes its responsibility to train students to be high-minded citizens full of a deep, abiding respect for both the glories and the obligations of American citizenship.

ORGANIZATION AND BROAD OBJECTIVES

The Texas State College for Women embraces the following components:

- (a) College of Arts and Sciences
- (b) College of Education
- (c) College of Fine Arts
- (d) College of Health, Physical Education, and Recreation
- (e) College of Household Arts and Sciences
- (f) College of Nursing
- (g) School of Library Science

In addition to the foregoing units, the organizational structure under which the educational programs at TSCW are administered include the Graduate School, which correlates and coordinates the graduate sequences available in each of the component colleges.

ACCREDITATION AND APPROVAL

Texas State College for Women is fully accredited by all appropriate agencies, including the Southern Association of Colleges and Secondary Schools and the Association of Texas Colleges. This general accreditation is a recognition of the quality of all of the colleges and departments of the Col-

lege. In turn, the excellence of the work done by these departments forms the basis for numerous memberships held by the College in selective associations and societies which recognize and demand high standards in specific fields.

THE CURRICULUM

Women desiring first-class professional preparation in a specialized field may choose from a wide range of courses, including those in the fields of advertising design, costume and fashion illustration, interior design, pre-medicine, nursing, medical technology, chemical laboratory technology, merchandising, secretarial service, health, physical education, and recreation, clothing and textiles, foods and nutrition, journalism, librarianship, music, occupational therapy, radio and television, public relations, speech correction, and teaching of any desired field.

Those desiring a general liberal education, without special emphasis on professional training, may select courses in major fields such as history, government, science, languages, literature, and other creative arts. Either professional or liberal arts courses allow great latitude in the choice of electives.

Whatever the objectives of the student, she will find in her chosen fields a well-trained faculty, well-equipped laboratories, and complete aids for study and research. Her courses, moreover, are designed to meet the special needs and interests of women, thus utilizing one of the unique advantages of a woman's college.

THE COLLEGE CAMPUS

The 200-acre TSCW campus, just 35 miles from the great Dallas-Fort Worth metropolitan cluster, is considered one of the most beautiful in the nation. Its many buildings of modified Georgian architecture, the famed Little Chapel-in-the-Woods, the 3,000 trees that make up the Redbud Trail, and gardens and winding drives make a perfect setting for study and growth.

Conveniently located classroom buildings were built to care for the specific needs of the colleges and departments for which they were designed. These buildings include the Administration Building, the Science Building, the Music and Speech Building, the Fine Arts Building, the Rural Arts Building, the Journalism Building, the Union Building, the Gymnasium, and the Library. The new building of the College of Household Arts and Sciences has attracted national attention.

Most students live in attractive brick dormitories, fire-proof and well equipped, in which living arrangements are convenient and inviting. Special dormitories are set aside for TSCW's large group of graduate and mature students. Students dine in the air-conditioned comfort of Hubbard Hall, a new, ultra-modern central dining unit.

For students who prefer even less expensive living arrangements than those of the regular dormitory system, the College provides the Rusk System (cooperative), where students do their own cooking and housework in an atmosphere of friendly team-work and cooperation.

Campus facilities include tennis courts, an 18-hole golf course and clubhouse, indoor and outdoor swimming pools, athletic fields, a beautiful botanical garden, wooded picnic grounds, and an outdoor theater. Nearby Lake Dallas offers opportunities for camping, water sports, and picnicking. The College's 20-acre campsite has three cabins for the accommodation of outing

groups, and its speedboat adds delight to the usual pleasures of picnickers. TSCW also has a 118-acre campsite on large Lake Texoma.

EQUIPMENT

Typical of the modern equipment in College buildings at TSCW is that found in the central dining unit, Hubbard Hall, the finest of its kind in America.

Its large central kitchen, beautifully appointed cafeteria, used by parents, faculty, and visitors, and the banquet halls, which serve a variety of college needs, combine to provide unrivalled dining facilities. Four very large, elegantly furnished dining rooms serve the everyday needs of students. Hubbard Hall also provides unique facilities for training students in dietetics and institution management. All dining space is air-conditioned and linked by an intercommunication system. Reception rooms and lounges are beautifully furnished.

The Student Union Building contains a recreation room, furnished with a long soda fountain, game tables, radios, television, and record players. The ballroom, 77 x 108 feet, with a stage at one end, provides an ideal setting for all-college dances.

Just across the street is "The Pub," which offers quick relaxation in the friendly atmosphere of its recreation room and soda fountain service. The Post Office and College Bookstore, adjoining "The Pub," are conveniently located for between-class visits.

The outdoor swimming pool, 50 x 150 feet, is equipped with a sand beach, floodlights, and underwater lights for the annual aquatics show.

Modern facilities in the new four-story Household Arts Building enable the College to continue its leadership in home economics training in the Southwest. In addition to laboratories and classrooms, the building has an air-conditioned assembly hall seating 200, an air-conditioned student lounge, and a museum. Given to the College by the Daughters of the American Revolution, a prime exhibit is the collection of inaugural gowns worn by the wives of presidents and governors of Texas. Equipment in the nine unit kitchens illustrates most of the kinds on the market today and was selected with various income levels in mind.

Instruction in biology, chemistry, and physics is given in a relatively new, three-story brick building, which contains modern, well-equipped laboratories, commodious photographic dark rooms, lecture rooms, several store rooms, a conservatory, and animal room. Laboratories are supplied with steam, vacuum, compressed air, distilled water, direct and alternating current; the dark rooms are supplied with thermostatically controlled water outlets providing a constant temperature for photographic processing.

Special features in various dormitories include recreation lounges on the main floors, student lounges, elevators, intercommunication systems, and built-in wardrobes.

THE BRALLEY MEMORIAL LIBRARY

TSCW's growing, diversified book collection is housed in a modern, conveniently arranged library building. Recent addition of two wings doubled the stack space originally provided, made possible the installation of numerous carrels for the use of graduate students, and provided more space for a reserve reading room. A general reading room and a small reading room have

been added, and a suitable area has been fitted for microfilm work. Equipment also has been added for the use of microcards.

Much of the book collection is directly at hand on open shelves. All bound magazines are in an open stack room furnished with well lighted study tables near the stacks. Current magazines are on open shelves in the main reading room. An open shelf library of some 14,000 volumes in all fields of study and general reading is arranged in alcoves on the mezzanine of the same room. All books in the reserve reading room are also on open shelves. This open shelf arrangement of large amounts of material throughout the library affords opportunity for extensive browsing and eliminates delay in securing desired books.

Services of the College Library were vastly increased by the formation of the North Texas Regional Libraries in the spring of 1943. This organization, including six other regional libraries, is the outgrowth of a plan to make available to students and scholars the library resources of the region.

TSCW Dormitory Room

College Services

NURSERY SCHOOL

The Nursery School, which trains children ranging in age from two and one-half to five years, provides a laboratory for college students majoring in Child Development and Nursery Education and in Home Economics Education and also for students who elect courses in these fields in preparation for parenthood.

DEMONSTRATION SCHOOL

A modern and well-equipped Demonstration School provides supervised experience for students who plan to teach kindergarten, first, second, third, fourth, fifth, or sixth-year classes.

VISUAL AIDS

The College maintains a film library of silent and sound films which are available to college classes, public schools, organizations, and individuals. Preview opportunities and projection equipment and facilities are widely utilized. A film catalogue is published. Films are available on a rental or service charge basis, depending on the distribution terms of each film. All transportation costs are borne by the users.

RADIO AND TELEVISION

TSCW has unusually well equipped radio studios. From the four studios of the campus radio station it is possible to channel programs to WCST, the Campus station; to KDNT, the local AM-FM station; or by wire to any of the commercial stations in Dallas or Fort Worth.

Remote equipment permits production from any place on the campus. Professional transcription equipment also enables students to gain much technical experience of value in the commercial field. The girls perform all the tasks and obtain first-hand experience in all phases of radio writing, programming, performing, and managing.

Through arrangement with KRLD, AM and FM, and KRLD-TV, in Dallas, classes in Radio and Television and students from other departments of the College write, produce, and participate in regularly scheduled programs of these great stations. Working under the guidance of professional experts, the students gain training and associations that would be impossible in any other circumstances.

SPEECH AND HEARING CLINIC

The Speech and Hearing Clinic, maintained by the College, serves both children and adults who need remedial help with speech and hearing problems. On an out-patient basis, individual and group therapy is available for persons requesting the service.

The Clinic also serves as a laboratory for students majoring or minoring in speech therapy. These facilities, coupled with opportunities for clinical practice in handicapped children's centers in nearby Dallas and Fort Worth, afford the TSCW student excellent training in speech and hearing therapy.

The College also operates a classroom in special education, in cooperation with the Denton Public Schools and in conjunction with the Speech and

Hearing Clinic. This classroom serves as a laboratory unit for those college women who wish to learn how to adapt an educational program to meet the special needs of the handicapped child.

GUIDANCE PROGRAM

The College maintains a guidance program with trained counselors to assist students who desire help in making decisions and adjustments. In addition, each student has as her personal adviser a professor of her major department. This intimate advisory relationship provides for the student a wise and mature friend, constantly available for counsel, guidance, and inspiration.

PLACEMENT BUREAU

Representatives from business, industry, government, and schools make frequent visits to the campus to confer with prospective women employees. The Placement Bureau, which maintains records, recommendations, and qualifications of every graduating senior, thus serves both employers and students. In recent years, Placement Bureau records show, the demand for TSCW-trained women has always far exceeded the supply. Former students have the privilege of writing back to the office for re-registration and additional help in finding new jobs. The College makes no charge for this service.

HEALTH SERVICE

The College maintains a health service which gives a health examination to every new student and which provides medical treatment and care at the College Hospital, staffed by a full-time resident woman physician and a corps of full-time nurses.

EXTENSION SERVICES

In order to make an additional contribution to the social, civic, and community life of the people of Texas, TSCW maintains a Department of Extension. The College is interested in the problems of the day, and its aim is to help promote every forward-looking movement which serves the interest of the state. The College believes that, so far as resources and facilities permit, its services should be available beyond the limits of the campus.

To do this, the Extension Service makes available cultural programs and informational material through lectures and demonstrations by college faculty members and through various types of publications.

EXTENSION CLASSES

Realizing the desire and need of many teachers in service and others interested in professional advancement, the College has formed a group of Extension Classes. These classes will be organized at convenient centers upon request of a sufficient number of students.

The conditions for admission to Extension Classes for credit are the same as for corresponding courses given on the campus. For additional information, write to Extension Affairs Committee, Drawer A, TSCW, Denton, Texas.

HOME STUDY DIVISION

In the desire to increase its services to the public, the College has developed a Home Study Division. A student in residence at TSCW or at an-

other college or university may register for courses in this Division with the permission of the dean of the college or university concerned. The courses are available also to persons not enrolled in any college or university.

The Home Study Division maintains an office, adequately staffed and equipped, which is open for interviews at regular hours. For a Home Study Bulletin and/or additional information, write to Home Study Division, Drawer B, TSCW, Denton, Texas.

TSCW Outdoor Pool

College Organizations

TSCW ALUMNAE ASSOCIATION CENTER

The TSCW Alumnae Association Center, adjacent to the main campus, was made available by the College for use as the headquarters of the TSCW Alumnae Association. Organized in 1905, the Association reached a total of 76 Texas chapters during 1954, the College's fifty-first year. Its members including those in a good many out-of-state chapters, maintain an active interest in their alma mater, many of them returning to the College for class reunions during commencement week and for visits during seasons of special activity.

THE TSCW FOUNDATION

The TSCW Foundation, a non-profit corporation chartered under the laws of Texas, was established in 1952 after two years of industrious planning. Its purpose is to receive and administer donations of money or other gifts designed to increase the renown, extend the services, improve the facilities, and promote the welfare of TSCW.

In its work of supporting the developmental program of the College, the Foundation operates with essential freedom of action under a board of nine directors composed of the following: the Chairman of the Board of Regents, the President of TSCW, the President of TSCW Alumnae Association, the President of the College Government Association, a representative of the Administrative Staff and Faculty, and four other directors representing various geographical sections of the state. Two of the last four must be men and two must be TSCW graduates. The Foundation is in fact a development board and closely resembles the development boards of other leading universities throughout the nation.

The Foundation is closely identified with the TSCW Alumnae Association. Its specific objectives include: provision of additional scholarships and fellowships, developmental activities in the Graduate School, College promotion, special resources and aids, memorial building projects, and other improvements in College facilities and services.

The Foundation encourages bequests. Persons who may be interested in giving an endowment to the College may use the bequests form at the back of this catalogue, or request a conference with administrative officers of the College.

Student Life

RESIDENCE

As a residential college, Texas State College for Women provides an ideal residential situation, offering the student a comfortable and attractive place to live while she is pursuing her college course and a varied program of activities designed for her personal development. Under sympathetic and experienced guidance, students enjoy a high degree of self-government and many opportunities for maturing values, for gaining social experience, and for achieving all-round personal adequacy.

The main housing units of the College are nine three-story brick dormitories, all having fireproof construction and modern facilities. Inviting living rooms, facilities for simple but adequate entertaining, a diversified library, and other resources for graceful living contribute to the homelike and cultural atmosphere of each hall.

Nine attractive and substantial two-story frame houses, accommodating 30 students each, form the Rusk System, a cooperative system, for students who must save expense by living under this arrangement. Several other frame dormitories are available for various supplemental purposes.

The following regulations govern housing:

1. All undergraduate students under 23 years of age whose homes are not in Denton are required to live in the College dormitories and to take their meals in the College dining halls. Such students must file with the Registrar formal application for room and board on Blank A, secured from the Registrar's office, and must agree to abide by the conditions set forth in this application blank.

2. Students are permitted to change their rooms during the first week of each semester, provided such changes are presented to the directors of the dormitories and are approved.

Undergraduate students are required to have roommates unless they request to room alone and agree to pay an extra fee of \$25.00 per semester during the regular session and \$7.50 per term during the summer session for this privilege. Students who for any reason do not have roommates and who do not agree to pay this extra fee will be assigned to a room with another student.

3. Students for whom rooms are reserved are expected to report on the first day of the college session. If a student who has paid her assurance fee for a room in a dormitory fails to report by midnight of the first day of classes, she forfeits her room unless she has previously notified the College as to the time she expects to arrive.

4. The College furnishes each student who lives in the regular dormitory system with her bed linen and one pair of blankets. All students must provide their own towels. Students living in the cooperative halls must supply their own linens and blankets.

5. Students' trunks should be plainly marked with name, and, if possible, addressed to the proper dormitory. Students on arriving in Denton are advised to retain baggage checks until they reach the dormitory.

6. The College authorities reserve the right to make, for any cause, at any time, changes in dormitory assignments.

STUDENT ORGANIZATIONS

The College Government Association

Each student becomes a member of the College Government Association when she registers in the College. This organization has for its purpose the development of citizenship by giving to each student the opportunity to participate in democratic community life. The governing board of the Association is known as the Student Council and is composed of the College Government officers and representatives from each dormitory, class, and campus-wide organization. These students work with the faculty and administration of the College in a cooperative effort to formulate and administer the policies of the College.

The Student Council of Religious Activities

The Student Council of Religious Activities assumes leadership in promoting the spiritual life of the campus and in cooperating with the local churches. It sponsors weekly vesper services in each dormitory, an early worship service each Sunday in the Little Chapel-in-the-Woods, an annual Religious Emphasis Week, and other religious programs throughout the year.

Its representative membership is made up of students chosen for their demonstrated interest in religious activities and spiritual values, two members being sent by each denomination which has a church organization in Denton and wishes to participate. Other religious organizations in which students have an opportunity to participate are the Wesley Foundation, the Baptist Student Union, the Wesley Fellowship, the Newman Club, the Hillel Foundation, and the Inter-Varsity Christian Fellowship.

The Student Finance Council

The Student Finance Council raises funds for fifteen freshman scholarships, aids in the maintenance of the Union Building, and sponsors a series of annual contributions to relief funds (the Red Cross, etc.). Its president is elected in the general spring elections, and a representative is elected in the fall in each dormitory. The Council is sponsored by an advisory committee appointed by the President of the College.

The Round Table

The Round Table coordinates and integrates the activities of all student organizations on the campus, these numbering almost one hundred. Every club president belongs to the Round Table, the officers of the large group being selected after clubs have elected their officers. The master schedule of club activities is so arranged by this group that a student may participate in several organizations.

The Student Council of Social Activities

The Student Council of Social Activities helps to integrate and promote the social program of the College through the literary-social clubs, the four college classes, and the residential units. With a purpose of inclusiveness, it seeks to contribute to the enjoyment and social development of each girl. All-college dances and a variety of group entertainments, scheduled on the college calendar throughout the year, not only provide pleasant occasions but are utilized as opportunities for constructive social experiences.

The Women's Recreation Association

The Women's Recreation Association is a campus-wide organization in which every student upon enrollment in the College becomes a member. The purpose of the Association is to conduct a program of recreation activities that promote happiness, fellowship, health, and worthy use of leisure time.

The varied parts of the program, organized as seasonal activities or year-round activities, consist of sports: archery, badminton, basketball, fencing, field hockey, golf, rifle shooting, softball, tennis, tumbling, and volley ball; dance: ballroom, folk, modern, and tap; aquatics: swimming, diving, life-saving, aquaplaning, canoeing, rowing, and sailing; outing: bicycling, hiking, and camping; and special events: monthly parties, play nights, dances, carnivals, regattas, and festivals.

CLUBS AND SOCIETIES

The College encourages active participation in the varied campus clubs which are open to both new and old students. These campus organizations fall into six major classifications.

DEPARTMENTAL CLUBS, linked with the major fields of study, include: the Art Club, the Association for Childhood Education, the Biology Club, Le Cercle Francais (French Club), E. V. White Mathematics Club, Health, Physical Education, and Recreation Professional Club, Home Demonstration Club, Journalism Club, La Junta (Spanish Club), Library Science Club, Mary Swartz Rose Club (Home Economics Club), Merchandising Club, Music Club, Occupational Therapy Club, Omega Rho Alpha (freshman English Majors), Professional Business Women's Club (Affiliated with the Texas Federation of Women's Clubs), Psychology Majors Club, Sociology Club, and Speech Club.

HONORARY SCHOLARSHIP organizations, for students who have won honors in the special fields, include the following local chapters of national organizations: Alpha Beta Alpha (library science), Alpha Chi (general scholarship, upper classmen), Alpha Kappa Delta (sociology), Alpha Lambda Delta (general scholarship, freshmen), Beta Beta Beta (biological sciences), Delta Phi Delta (art), Iota Sigma Pi (chemistry), Kappa Alpha Mu (photographic journalism), Kappa Mu Epsilon (mathematics), Omega Rho Alpha (freshman and sophomore English), Phi Upsilon Omicron (home economics), Pi Lambda Theta (women students in Education), Sigma Alpha Iota (music), Sigma Pi Beta (business administration), Sigma Tau Delta (English), Theta Sigma Phi (journalism), Zeta Phi Eta (drama and speech).

LITERARY-SOCIAL organizations include: Adelpian Club, Aglaian Club, Alice Freeman Palmer Club, Athenaeum Club, Betsy Ross Club, Chaparral Club, Delian Club, James H. Lowry Club, L'Allegro Club, Mary Eleanor Brackenridge Club, and Philomathia Club. These organizations are junior federated clubs, fully identified with the Texas Federation of Women's Clubs and the General Federation. In addition to their activities in connection with the Federation's program, these clubs combine interest in current affairs and the arts with the sponsoring of social activities.

REGIONAL clubs, designed to promote good fellowship on and off the campus among students who live in the same region, include: Arkansas Club,

Bryan-College Station Club, Cosmopolitan Club (out-of-state students), Coastal Bend Club, Dallas Club, East Texas Club, El Paso Club, Fort Worth Club, Galveston Club, Heart of Texas Club (Brown, Coleman, Comanche, Lampasas, Mills, McCulloch, and San Saba Counties), Houston Club, North Texas Club, Panhandle Club, Rio Grande Valley Club, Rod and Reel Club (Orange and Jefferson Counties), San Antonio Club, Villagers Club, and Wichita County Club.

RELIGIOUS organizations besides the Student Council of Religious Activities include: Inter-Varsity Christian Fellowship, the Hillel Foundation (Jewish students), the Newman Club (Catholic students), the Baptist Student Union, the Presbyterian Student Union, and the Wesley Foundation.

SPECIAL INTEREST organizations include: the Campus League of Women Voters, Daughters of the American Revolution, Daughters of TSCW Alumnae, Graduate Club, International Relations Club, Philosophy Club.

Students also may take part in such performing organizations as: the College Theater, Tessie Players, Verse Speaking Choir, Modern Choir, Singing Stars, College Chorus, TSCW Symphony Orchestra, Serenaders, Band, Radio Guild, Caperettes, Folk Dance Club, and Modern Dance Club

SPECIAL ACTIVITIES

Entertainment

The cultural resources of the College are enriched by a Concert and Drama Series which each year brings nationally and internationally prominent personalities and ensembles to the campus for concerts, lectures, and a variety of other performances in the realm of the theater, the dance, etc.

Supplementing this series are outstanding student productions including the TSCW Symphony, the Modern Dance Group, the College Theater and the Modern Choir. Also featured are the traditional Nativity Pageant, Class Stunts, and the Redbud Festival.

The location of the College — thirty-five miles from Dallas and Fort Worth — provides unusual cultural opportunities, such as the Metropolitan Opera, State Fair Musicals, Theater in the Round, lectures by noted speakers, and many exhibits. College busses furnish easy and safe transportation.

Traditional campus events build treasured memories for every TSCW graduate. Among the events familiar to every "Tessie" are these annual high points: All-College Night, Lantern Parade, WRA Carnival, Corps Trip, Gold Rush Carnival, Stunt Night, Howdy Dinner, All-College Picnics, Corn Huskin' Bee, Religious Emphasis Week, Caroling during Christmas Week, Dorm Open Houses, and Self-Development Week.

Student Publications

Three periodicals are published by the students of the College: *The Daily Lass-O*, a daily paper devoted to news of the campus and the current problems and interests of student life; the *Daedalian Quarterly*, a literary magazine, published quarterly; the *Daedalian Annual*, serving primarily as a

memorial of the graduating class, but incidentally touching every phase and interest of college life, both humorous and serious.

Recreation

TSCW affords extraordinary recreational facilities—play-fields for all sports, hard and clay tennis courts, an 18-hole golf course with a television-equipped clubhouse, outdoor and indoor swimming pools, dance studios; a large gymnasium equipped for volley ball, badminton, and basketball; cabins for camping in the campus woods; a 20-acre campsite on the eastern shore of Lake Dallas, with three cabins and swimming and boating facilities; and a 118-acre campsite on Lake Texoma.

Religious Life

The Texas State College for Women has always been known as a college in which the religious program holds a very important part. The Student Council of Religious Activities promotes spiritual life on the campus, co-operates with the churches in Denton, and organizes and directs special religious events.

An important factor in the religious program is the Little Chapel-in-the-Woods, called the most beautiful in the nation, where students may go in small groups for services and for individual prayer and meditation. A large part of the work in creating the Chapel—the stained glass windows, mosaics, carvings, doors, and light fixtures—was done by students from the College Art Department. Approximately 500 students and ex-students have been married in the Chapel since its construction in 1939.

Orientation Course

All freshman students at Texas State College for Women participate in a unique class in Orientation, running through both semesters of the year. Based upon an interpretation of personality as the total person, the course is designed to help the girl to analyze herself, to assay her potentialities, and to develop them as fully as possible.

Experts, drawn from the college faculty as well as from off-campus, present the lectures and demonstrations covering a wide range of related subjects; personal attractiveness and fitness as related to physical and mental health; deepening spiritual values; selecting styles in clothing suitable to events on and off the campus; care of the hair and complexion; good grooming and carriage; voice and diction as personality factors; problems relating to dating, courtship, and marriage; and basic good manners in normal social situations.

Orientation 111—Personality. First semester. One hour a week. Credit, one hour. For freshmen only. Lecture and demonstration.

Orientation 112—Personality. Second semester. One hour a week. Credit, one hour. For freshmen only. Lecture and demonstration.

Admission

All communications in regard to admission to the Texas State College for Women should be addressed to the Dean of Admissions of the College, Drawer A, TSCW Station, Denton, Texas.

ADMISSION TO THE FRESHMAN CLASS

High School Graduation

Fifteen units as listed below from an accredited secondary school with graduation are required.

English	3
Mathematics (at least one unit in Algebra)	2
Chosen from Foreign Language, Social Science, Natural Science	4
Electives	6

Students whose credits do not conform to the above pattern should submit their records for individual consideration for conditional admission.

College Entrance Examinations

A student under 21 years of age who has not graduated from an accredited secondary school may be admitted by passing college entrance examinations over fifteen acceptable units.

Individual Approval

An applicant for admission, 21 years of age or over, may be admitted to the College without examination. She must show evidence that she has substantially covered the work required of other applicants and has sufficient seriousness of purpose to do the desired work.

ADMISSION TO ADVANCED STANDING

Students transferring to TSCW from another recognized college should submit a transcript of credits to the Dean of Admissions for evaluation and acceptance.

ADMISSION TO THE GRADUATE SCHOOL

Graduates of this College, or of any university or college recognized as in good standing by the Southern Association of Colleges and Secondary Schools, may be admitted to the Graduate School. Interested students should obtain a Graduate Bulletin by addressing the Registrar, Drawer A, TSCW Station, Denton, Texas.

Expenses

COST OF ATTENDANCE

The charges for attending the Texas State College for Women are among the lowest in the nation. Except for applied music, laundry, and miscellaneous school supplies, these charges are all-inclusive. Textbooks are supplied by the College. The total amount expended by each student during the session will depend on her disposition and habits; the College, however, encourages economy. The charges for room and board are based on present conditions and are subject to change as conditions warrant. Payments for tuition, fees, room and board should be made to the Texas State College for Women and should be addressed to the Office of the Comptroller, Box 2906, TSCW Station, Denton, Texas.

Regular Dormitory System

*Tuition	\$50.00
Fees (Textbook Rental, Medical, Concerts, etc.)	30.00
Room and Board	494.00
Linen, Laundry Fee	12.00
<hr/>	
*Total	\$586.00

*State law requires that out-of-state students pay \$100.00 additional tuition for the session.

The above charges are in addition to the \$10.00 room assurance deposit. The \$10.00 room assurance deposit is payable when application is made for a room and \$5.00 of this amount is refundable if requested on or before August 1 of the scholastic year for which the deposit is made. Failure to matriculate in the College will result in the forfeiture of the room assurance deposit. Otherwise, one-half of this deposit will be used to cover use of linen and room key and one-half will be refunded, less necessary deductions for loss or damages, upon withdrawal of the student.

Mature and graduate students may reside in one of the College dormitories set aside for their use. These students room alone and pay an additional fee of \$25.00 per semester unless they complete arrangements to share a room with another advanced student.

Undergraduate students are required to have roommates unless they request to room alone and agree to pay an extra fee of \$25.00 per semester during the regular session and \$7.50 per term during the summer session for this privilege. Students who for any reason do not have roommates and who do not agree to pay this extra fee will be assigned to a room with another student.

I. Expenses for Each Semester:

*Tuition	\$25.00
Fees (Textbook Rental, Medical, Concerts, etc.)	15.00
Room and Board	247.00
Linen, Laundry Fee	6.00
<hr/>	
Total	\$293.00

*State law requires that out-of-state students pay \$50.00 additional tuition for each semester at registration.

II. Installment Paying, First Semester:

First Installment, Payable on Entrance	\$116.00
Second Installment, Payable October 1-9	59.00
Third Installment, Payable November 2-10	59.00
Fourth Installment, Payable December 1-10	59.00

III. Installment Paying, Second Semester:

First Installment, Payable on Entrance	\$116.00
Second Installment, Payable February 20-27	59.00
Third Installment, Payable March 20-29	59.00
Fourth Installment, Payable April 20-30	59.00

The second, third, and fourth payments are due between the dates shown above; the fee for delayed payment shall be \$1.00 per day each day after the last dates shown. Students who are delinquent after the fifth day must withdraw from the College because delinquent accounts are in effect equivalent to charge accounts which are forbidden under the terms of an opinion rendered by the Office of the Attorney General of Texas.

Rusk Cooperative System

For the benefit of those students who cannot afford to live in the regular dormitory system and to whom college would be denied if some other provision were not made, the College maintains the Rusk System (Cooperative). In this system, which is made up of nine two-story houses, students live in groups of twenty-five to forty and take care of their own housekeeping arrangements, including the preparation of meals, under the supervision of a trained director and two assistants in each house.

Application to reside in this system must be accompanied by a statement from the girl and one from her parents showing that residence in the regular system would impose a financial hardship. Furthermore, since residence in the Rusk System is considered equivalent to having a job, a girl residing in this system normally may not hold another form of student employment except in cases of great need or emergency, in which case application must be made to the Student Employment Committee for special permission.

*Tuition	\$50.00
Fees (Textbook Rental, Medical, Concerts, etc.)	30.00
Room and Board	262.00
<hr/>	
Total	\$342.00

*State law requires that out-of-state students pay \$100.00 additional tuition for the session.

In addition to the charges enumerated above, each student in the co-operative system is required to pay a room assurance fee of \$5.00. This \$5.00 room assurance deposit is payable when application is made for a room and \$2.50 of this amount is refundable if requested on or before August 1 of the scholastic year for which the deposit is made. Failure to matriculate in the College will result in the forfeiture of the room assurance deposit. Otherwise, one-half of this deposit will be used to cover housekeeping equipment and one-half will be refunded, less necessary deductions for loss and damage, upon withdrawal of the student.

I. Expenses for Each Semester:

*Tuition	\$25.00
Fees (Textbook Rental, Medical, Concerts, etc.)	15.00
Room and Board	131.00
<hr/>	
Total	\$171.00

*State law requires that out-of-state students pay \$50.00 additional tuition for each semester at registration.

II. Installment Paying, First Semester:

First Installment, Payable on Entrance	\$72.00
Second Installment, Payable October 1-9	33.00
Third Installment, Payable November 2-10	33.00
Fourth Installment, Payable December 1-10	33.00

III. Installment Paying, Second Semester:

First Installment, Payable on Entrance	\$72.00
Second Installment, Payable February 20-27	33.00
Third Installment, Payable March 20-29	33.00
Fourth Installment, Payable April 20-30	33.00

The second, third and fourth payments are due between the dates shown above; the fee for delayed payment shall be \$1.00 per day for each day after the last dates shown. Students who are delinquent after the fifth day must withdraw from the College because delinquent accounts are in effect equivalent to charge accounts which are forbidden under the terms of an opinion rendered by the Office of the Attorney General of Texas.

Students Not Residing on the Campus

The charges of the College, payable by students not residing on the campus, to cover tuition, library fee, free textbooks, Concert and Drama Series, etc., amount to \$80.00 for the long session, \$40.00 each semester.

*Tuition	\$50.00
Fees (Textbook Rental, Medical, Concerts, etc.)	30.00
<hr/>	
Total	\$80.00

First semester: \$40.00 on entrance.

Second semester: \$40.00 on entrance.

*State law requires that out-of-state students pay \$100.00 additional tuition for the session.

Music Fees

There are no fees for courses in the theory of music and musicology, or in class instruction.

The following charges are made for private instruction in voice, piano, violin, cello, harp, or organ each semester:

One hour credit (one 30-minute private lesson period per week, minimum two hours daily practice)\$18.00

Two hours credit (two 30-minute private lesson periods per week, minimum two hours daily practice)\$35.00

These fees are payable in advance, at time of registration.

Laboratory Fees

The following charges are made for laboratory courses:

Each course of three semester hours or less	\$2.00
Each course of four semester hours or more	\$4.00
Laboratory fees will not be refunded.	

Late Registration Fees

Students who do not register during the regular registration period will be required to pay a late registration fee of \$1. Students who have not completed registration by the close of the ninth class day will be required to pay a late registration fee of \$5.

Diploma and Graduation Fee

A diploma fee of \$3.50 and a cap and gown fee of \$2.50 is required of each student receiving a degree from the College.

Refunds

In the above enumeration of charges for both the regular dormitory and cooperative systems, no refund will be made, on withdrawal, for payment of room rent, but payment of board will be refunded in full from the date of fifteen days after withdrawal.

In regard to refunds for tuition and fees, the following schedule has been adopted:

	Texas Students	Out-of- State
*1st week—80% of \$25 plus \$10.75 student fee	\$30.75	\$70.75
2nd week—60% of \$25	15.00	45.00
3rd week—40% of \$25	10.00	30.00
4th week—20% of \$25	5.00	15.00

No part of tuition or fees is returned after the fourth week.

*First week begins with the day on which classes begin.

Explanation of the Fees Listed

1. The payment of the tuition fee of \$50.00 (\$150.00 for out-of-State students) entitles the student to the following privileges: (a) instruction in the various non-laboratory classes; (b) the use of the College Library; (c) the instruction and training in all subdivisions of the College of Health, Physical Education, and Recreation including the use of bathing suits for the swimming pool.

2. The textbook, medical, and student activity fee of \$30.00 (\$15.00 each semester) entitles the student to the following privileges: (a) the use of the required textbooks; (b) services rendered by Cashier's office; (c) the services of the College Physician and the regularly employed nurses. (It is the function of the Health Service to care for sick or injured students, where such care does not involve a major operation. Hospital service includes an unlimited number of office calls, but when a student is hospitalized as a bed patient, her stay is limited to seven days for each semester of the regular session, after which she will be charged for such hospitalization at the rate of \$3.00 per day. The employment of a special nurse or other extra expense such as serum treatments will also be a special charge against the student.) (d) Concert and Drama Series ticket for the session; (e) special lectures; (f) subscription to *The Daily Lass-O* and the *Daedalian Quarterly*;

(g) membership in the College Government Association; (h) credit for payment of class dues.

The tuition fee of \$50.00 per regular session of nine months for Texas students (\$150.00 for out-of-State students) is that authorized by law. Therefore, the amount is subject to changes as may be made from time to time by the Legislature.

Central Dining Hall

Scholarships and Student Aids

The College awards annually a large number of scholarships which have been made possible by generous friends and supporters of the College. Application blanks for scholarships are available at the Office of the Dean of Admissions.

REGULAR SCHOLARSHIPS

Augusta Hermes Scholarship: This scholarship of \$25.00 annually is provided by Mr. William Hermes in memory of his wife Augusta Willenberg Hermes, a former student of the College.

Bertha Altizer Hubbard Scholarship: Presented by former President L. H. Hubbard as a memorial to his wife, the late Behtra Altizer Hubbard. The value of this scholarship is \$125.00. It is awarded annually.

Bertha Levy Scholarship (Graduate): This scholarship in Sociology is provided by Mrs. Orien Levy Woolf of Dallas, a graduate of the Department of Sociology. It is awarded annually in the amount of \$100.00.

Betty Russell Simmons Memorial Scholarship: This scholarship of \$100.00 is presented to the College by Mr. and Mrs. J. Holford Russell of Denton in memory of their daughter, Betty Russell Simmons, a former student of the College. It is awarded annually to an outstanding merchandising major selected by the staff of the Department of Business and Economics.

Delta Kappa Gamma Scholarship: The state organization of Delta Kappa Gamma has established the Lalla M. Odom Scholarship in the value of \$62.50 annually, the recipient to be named by the sorority.

Fannie C. Potter Memorial Scholarship: This scholarship of \$100.00 annually is provided by the Texas Federation of Women's Clubs as a memorial to Mrs. Fannie C. Potter, a past State President of the Federation. It is awarded to a junior or senior.

Freshman Scholarships: Scholarships of \$100.00 each are provided by the students of the College, through their College Government Association, to entering freshmen whose high school records give promise that they will become outstanding students of the College.

High School Valedictorians: Each Texas girl who is a high school valedictorian is awarded a tuition scholarship of \$50.00. This scholarship is available only to a graduate of a first-class high school and is good only for the year immediately following graduation. Each valedictorian should be certified by her principal or superintendent to the Texas Education Agency.

Jessie H. Humphries Scholarship: Presented by the family and friends of Miss Jessie H. Humphries, former Associate Dean of the College and Director of the Department of Sociology.

Journalism Scholarships: Several \$100.00 scholarships are awarded to promising Journalism students.

L. H. Hubbard Scholarship (Graduate): This scholarship was estab-

lished by the TSCW Student Finance Council as an evidence of esteem for former President Hubbard. It is awarded annually in the amount of \$100.00.

Mary Gibbs Jones Home Economics Scholarships (16): These scholarships, each in the amount of \$125.00, are offered through the generosity of Mr. and Mrs. Jesse H. Jones of Houston.

Mary Gibbs Jones Music Scholarships (15): These scholarships are also the gift of Mr. and Mrs. Jesse H. Jones. Each of these scholarships is in the amount of \$200.00.

North American Aviation Foundation Scholarships: These scholarships of \$125.00 each are the gift of the North American Aviation Company, in recognition of the splendid contribution made by TSCW graduates who were employed by this company during World War II. They are to be awarded to students who worked for this company during the war or to their children.

Presser Foundation Scholarship: This scholarship in the amount of \$250.00 is the gift of the Presser Foundation of Philadelphia and is awarded annually to a music student of outstanding promise, preferably as a teacher of music.

Professional Business Women's Club Scholarship: This scholarship, valued at \$100.00, is provided by the Professional Business Women's Club of the College. It is awarded annually to a junior or senior business major.

Robinson-Hendricks Memorial Scholarship: This scholarship is the gift of Mr. and Mrs. E. R. Robinson of Dalhart, presented in recognition of the service rendered to their daughters, both graduates of the College, while they were students. It is awarded annually in the amount of \$125.00.

TSCW General Scholarships: These scholarships in varying amounts up to \$150.00 are awarded annually to deserving students with outstanding high school or college records.

University Interscholastic League Scholarships: In recognition of the splendid competitive opportunities offered by the University Interscholastic League to the girls of Texas, the College Government Association offers a \$50.00 tuition scholarship to each girl who wins first place in an All-State contest of the League. Winners of these scholarships must use them the year following their graduation from high school and must present certificates of eligibility from the Director of the League.

Willis H. Clark Graduate Fellowship: Established in 1952 by colleagues and friends in appreciation of services rendered to the College by Dr. Willis H. Clark, former director of the Graduate Division and Dean. The fellowship is awarded to a woman of high academic achievement who is working toward a graduate degree in TSCW.

SPECIAL SCHOLARSHIPS

In addition to the foregoing scholarships which have been established on a continuing basis by endowment or by formal agreement, the College is able to offer a number of special scholarships provided on a voluntary annual renewal basis by individuals, clubs, and business firms with a loyal and generous interest in the welfare of the institution. These include:

Alumnae Association Scholarships: Various chapters of the TSCW Alumnae Association have scholarships which are normally administered locally.

Denton County National Bank of Denton Special Scholarship, a \$100.00 scholarship donated by the Denton County National Bank of Denton, Texas.

Denton Chapter of National Secretaries Association, an \$80.00 scholarship given to a Denton High School graduate who wishes to major in Business, given by the Denton Chapter of the National Secretaries Association.

W. T. Evers Special Scholarship, a \$100.00 scholarship to be awarded to a music student, donated by Mr. and Mrs. W. T. Evers of Denton, Texas.

First State Bank of Denton Special Scholarship, a \$100.00 scholarship donated by the First State Bank of Denton, Texas.

J. D. Jefferson Special Coca-Cola Scholarship, a \$100.00 scholarship donated by Mr. J. D. Jefferson of the Denton Coca-Cola Company.

Jessie H. Humphries Special Scholarship, a \$100.00 scholarship donated by the Sociology Club of TSCW.

John A. Guinn Special Scholarship, a \$100.00 scholarship donated by Mr. and Mrs. E. P. Nowotny of New Braunfels, Texas, and named for the President of the College. The scholarship is awarded annually to an outstanding graduate of New Braunfels High School majoring in Business at TSCW.

Lions Club Special Science Scholarship, a \$100.00 scholarship given by the Denton Lions Club.

Monroe-Pearson Grocery Company Special Scholarship, a \$100.00 scholarship given by the Monroe-Pearson Grocery Company of Denton, Texas.

Mrs. C. D. Judd Special Scholarship, a \$100.00 scholarship given by Mrs. C. D. Judd of Denton, Texas.

Mrs. Charles F. Ashcroft Coca-Cola Scholarships, two \$300.00 scholarships annually. These two scholarships in the amount of \$300.00 each are made available by Mrs. Charles F. Ashcroft of Sulphur Springs, Texas, a member of the Board of Regents.

Russell-Newman Manufacturing Company Special Scholarship, This \$100.00 scholarship is provided by Russell-Newman Manufacturing Company of Denton, Texas.

Texas Federation of Women's Clubs Art Scholarships, These two \$100.00 scholarships are provided by the Texas Federation of Women's Clubs.

TSCW Foundation Scholarships and Fellowships, From funds of the TSCW Foundation, a number of scholarships and fellowships are awarded annually to deserving applicants of exceptional promise who need financial assistance in order to attend TSCW.

STUDENT LOAN FUND

Aided by many gifts from interested friends, ranging from \$1.00 to the

\$50,000.00 presented by the estate of the late Will Hogg of Houston, the College has loan funds available to students who need financial assistance.

A freshman to be eligible for a loan must have been graduated in the upper half of her high school class. Other students must have at least a C average on their college records. Student loans are intended to be used in meeting college charges for tuition, room, and board, and may not exceed a total of \$1,200.00 for the four years. Maximum loan for any one year is \$600.00. Loans are made for a period of two years, but may be extended until graduation. The rate of interest usually charged is 3%. The loan is safeguarded by personal security.

The fact that hundreds of girls have availed themselves of these loans in order to continue their college work is evidence of the usefulness of this method of financing their education. Application for loans should be made to the Secretary, Loan Fund Office, Box 2906, TSCW Station, Denton, Texas.

STUDENT EMPLOYMENT

There are many deserving and ambitious young women in Texas who are unable to attend college unless they can earn at least a part of their expenses. The College authorities desire to find employment for as many of these as possible, and provide a limited number of positions to take care of these needs.

The Committee on Student Employment is designed to render all possible assistance to those seeking employment. All communications in regard to this matter should be addressed to the Secretary, Student Employment Committee, Box 2965, TSCW Station, Denton, Texas.

STUDENT ASSISTANTS

The College offers to students of superior ability who have attended the College at least a year a number of assistantships in its various departments.

The Curriculum

CLASSIFICATION OF STUDENTS

Classification of students is made at the beginning of each regular session. Reclassification at the beginning of the second semester is made by student application. Only those students who are candidates for degrees in June are required to reclassify.

Students are classified as freshmen, sophomores, juniors, seniors, post-graduates, and graduates.

Freshman: A student who has completed fewer than 30 semester hours with 24 grade-points in addition to full entrance requirements.

Sophomore: A student who has completed 30 semester hours with 24 grade-points.

Junior: A student who has completed 60 semester hours with 54 grade-points.

Senior: A student who has completed 92 semester hours with 92 grade-points and has fulfilled the Good English Requirement.

Post-Graduate: A student who holds a degree but is enrolled in undergraduate courses.

Graduate: A student whose undergraduate work has been approved by the Graduate School and who is enrolled in graduate courses.

If a student transfers from another college, classification upon first admission is determined by the number of hours accepted for transfer; however, a student transferring ninety-two or more semester hours must pass the Good English Requirement Test before being classified as a senior. After a student has been in residence at the College, grade-points, as enumerated above, are required in classification. In determining the number of grade-points of a student who has transferred, the transferred credits will be calculated on the basis of the average of all the work completed by the student in residence in this College.

SCALE OF GRADING

The grades used with their interpretation are: A, Excellent; B, Good; C, Average; D, Inferior but passing; F, Failure; Inc., Incomplete.

A grade of Incomplete is given when some of the work of the course has not been completed; the student must show good cause for the failure to complete the work by the end of the semester. If a student is entitled to receive a grade of Incomplete, she may make application for it in the office of the Dean of the College. A grade of Incomplete must be removed by the end of the fourth week of the following semester or summer term if the student is enrolled in the College. A student who does not continue in the College the following semester or summer term must arrange to have the Incomplete removed by the end of the semester or term. Failure to comply with the above regulation will result in a grade of F on the student's record.

GRADEPOINTS

A definite number of gradepoints is given for each grade made by a student:

Grade A—3 times as many gradepoints as hours credit.

Grade B—2 times as many gradepoints as hours credit.

Grade C—1 times as many gradepoints as hours credit.

Grade D—No gradepoints.

Grade F—No gradepoints.

A student is given the privilege of repeating a subject for which she has credit in order to raise a passing grade previously recorded, provided that the second grade be recorded without credit. The last grade shall govern the calculation of gradepoints.

SCHOLASTIC PROBATION

The failure of a student to earn the minimum number of semester hours and gradepoints at the end of the semester places the student on scholastic probation for the next semester in attendance at the College. Earning the required number of hours and gradepoints at the end of that semester shall remove a student from such probation. Failure to accomplish this shall automatically bar the student from re-entering the College for one semester.

Unless a student meets the following standard of work at the end of each semester, she shall be placed on scholastic probation or dropped from the College.

A first-year student shall earn a minimum of nine semester hours and six gradepoints during a semester. A second-year student shall earn a minimum of nine hours and nine gradepoints during a semester. A third-year student, or one more advanced, shall earn a minimum of nine hours and twelve gradepoints during a semester.

GENERAL REQUIREMENTS AND EXPLANATIONS**General Requirements for the Degree of Bachelor of Arts**

Subjects	Semester Hours
Economics, Sociology	6
English 131-132, 231-232	12
Fine Arts	3
Foreign Language	12
Government	6
History	6
Mathematics, Science	12
Philosophy	3
Physical Education	4
Major, minor, and electives to total	124

General Requirements for the Degree of Bachelor of Science

Economics, History, Sociology	6
English 131-132, 231-232	12
Foreign Language, Mathematics or Science	6
Government	6
Physical Education	4
History	6
Major, minor, and electives to total	124

(1) Students may graduate under any catalogue in force since their matriculation, provided the catalogue is not more than five years old.

(2) The provisions of this catalogue will apply to all students who enter the College on and after June 15, 1954. If graduation is not attained within five years after admission, the College reserves the right to change degree requirements.

(3) For all students, at least 30 of the last 36 hours of work credited toward the degree must be done in residence at TSCW. At least one-half of the advanced courses (3 hours) in the minor subject, and at least one-half of the advanced courses (6 to 9 hours) in the major subject must be done in residence at the College.

All senior programs must be approved by the Dean of the College.

(4) Degrees are conferred at the close of the first and second semesters and at the close of the summer session. Only one Bachelor of Arts and one Bachelor of Science degree may be conferred on the same student. A minimum of 124 semester hours and 124 gradepoints is required for the bachelor's degree. In departments where the Bachelor of Arts and the Bachelor of Science degrees are given in the same field, a student completing the prescribed courses in one of these majors presenting a minimum of 139 semester hours, 139 gradepoints, and 42 advanced hours may receive both degrees at the same commencement.

When a second Bachelor's degree is desired in a field other than that **covered by the first degree** the student must earn a minimum of 30 semester hours, including 12 advanced hours in the second field, and in addition must meet all catalogue requirements for the second degree.

(5) In addition to the credit hours and gradepoints required for graduation a student must meet the Good English Requirement.

The Good English examination is given in the spring to students who have completed English 232, and in the fall to students who took English 232 in the summer terms and to all transfer students who have completed twelve hours of English.

If the student fails the Good English examination, she must, in order to meet the Good English Requirement, pass a three-hour course in English 233—Remedial English. English 233 is not counted for gradepoints or for credit toward graduation.

No student can be classified as a senior until she has met the Good English Requirement.

(6) One of the requirements for graduation from the Texas State College for Women, is that the total number of gradepoints must equal or exceed the total number of semester hours required for graduation, and an average of C must be made in both the major and minor subjects. If the student has completed the course requirements for graduation and lacks the required number of gradepoints, the deficiency may be made up by taking additional courses and earning the required number of gradepoints, or by repeating courses and raising grades. The minimum number of gradepoints required for graduation is 124.

In meeting the requirements for graduation, gradepoints on credits transferred from another institution are determined by the average made on all residence work at TSCW.

(7) All groups of courses leading to degrees are based upon four or more years of study. Each group contains a prescribed major subject which the student should choose by her sophomore year or not later than the beginning of the junior year. The major subjects are listed under the departmental sections of this catalogue.

(8) In addition to the major subject, each student selects a minor subject not later than her junior year. Suitable minors are selected after consultation with the student's faculty adviser. A minor consists of 18 semester hours, including 6 advanced hours. The major and minor subjects must be in separate departments except in the departments of Biology; Business and Economics; History and Government; and College of Education. Where minors are chosen in one of the departments listed above, they must be in a different field from the major subjects.

(9) A minimum of 36 advanced hours is required for any bachelor's degree.

(10) Science, Mathematics Requirement for Bachelor of Arts degrees:

1. Science 12 hours, Mathematics 12 hours, or Science 6 hours and Mathematics 6 hours.
2. The science requirement to be absolved by a laboratory science in Biology, Chemistry or Physics. Photography will not satisfy this requirement.
3. Mathematics 136, 137 will not absolve the mathematics requirement except for majors in Business.

(11) Foreign Language Requirement for Bachelor of Arts degrees:

1. 12 hours of Foreign Language in addition to 2 entrance units must be presented. The entrance units must be in the same foreign language.
2. 6 of the 12 hours must be in a second year of a foreign language.
3. Students who do not present 2 units in the same foreign language must complete 18 hours in Foreign Language, 6 of which must be in a second year.

(12) Foreign Language, Mathematics, Science Requirements for Bachelor of Science degrees:

1. 6 hours of Science, 6 hours of Foreign Language, or 6 hours of Mathematics. The 6 hours cannot be distributed over two subjects.
2. The same restrictions apply to science and mathematics as found in section 10 above.

(13) When the term "Fine Arts" appears in the tabulation of required courses toward the degree of Bachelor of Arts, the student has the privilege of electing one of the following: Art 339, Greek and Roman Culture 339, Music 339, Physical Education 339, Speech 339a, Speech 339b, Speech 339c. Prerequisites, junior standing. Excepting the Department of Foreign Languages, a student who is majoring or minoring in a department will not be permitted to absolve this requirement by taking this course offered by the department. A student will be limited to six hours selected from the courses, and only three hours to count as advanced work.

(14) All courses the first digit of whose number is 1 are intended primarily for freshmen, and courses not so numbered are not open to freshmen unless they have credit for such courses as are prerequisite to those which

they propose to take, or secure special permission to enter the course.

(15) Any College course may be regarded as an elective, provided the student has met the necessary prerequisites.

(16) A student who has 92 or more hours of college credit, and who registers for a freshman course, will receive no credit in that course unless she makes a grade of C or higher.

(17) An advanced course is one that is numbered 300 or above.

(18) No credit will be allowed for the completion of one semester's work in a hyphenated course. Only credit for the full year's course will be given.

(19) Distinction in scholarship is recognized by the award of honors in two forms: Intermediate Honors for the work of a single semester, and Final Honors for the work of the entire college course.

Intermediate Honors are awarded to students who, in the preceding semester during which they have been in residence at the College, have made no failing grades and have secured credit for not less than nine hours with gradepoints amounting to 2.3 of the number of hours of credit.

Final Honors are awarded at graduation to those who have attended the College at least two semesters, securing a minimum of thirty hours; and who have received gradepoints thereon amounting to 2.5 of the whole number of hours of credit secured at the College. Students receiving Final Honors are given honorable mention at the time of their graduation; furthermore, this attainment is indicated on the diploma.

(20) Preparation requiring a minimum of two hours outside work is expected for each recitation or lecture period, and preparation requiring a minimum of one-half hour is expected for each laboratory period. As a rule, a laboratory period of three hours is considered the equivalent of a one-hour lecture or recitation period.

(21) The Registrar keeps an accurate record of the number of credit hours each student has earned; nevertheless the student is held responsible for keeping herself informed on this subject. A record book is given each student for her information and also for the information of her faculty adviser, who assists the student in planning courses to meet the requirements for graduation.

(22) Grades of a student are entered on her permanent record at the close of each semester or summer term, provided that the student has settled all indebtedness to the College. Grades of a student who is indebted to the College will be withheld from the permanent record until such indebtedness has been settled or satisfactorily arranged with College authorities. By indebtedness is meant amounts of money due the College for board, room, tuition, books, laundry, or any other financial obligation legitimately charged to the student's account.

(23) A student may not deviate from the curriculum requirements provided in the catalogue except by special permission of the Dean of the College. Substitutions or changes in the degree requirements are seldom permitted.

(24) The offerings in this catalogue (including individual courses, major and minor subjects, and groups of courses leading to degrees) have been approved by the Board of Regents of the College. They are, however, sub-

ject to such changes as our appropriations or enrollment may warrant from time to time and also to such deviations as may be authorized by law.

GRADUATE SCHOOL

Admission

Graduates of this College, or of any university or college recognized as in good standing by the Southern Association of Colleges and Secondary Schools, may be admitted to the Graduate School by the Dean of Admissions and the Dean of the Graduate School.

Graduates of other institutions should furnish the Dean of Admissions with a transcript of all college work done before and after receiving the bachelor's degree. Graduates of this College should furnish a transcript of all college work done since receiving their bachelor's degrees. As soon as possible after receipt of these transcripts the students will be notified of their status as graduate students by the Dean of the Graduate School. If the transcripts show any deficiencies in prerequisites for graduate work in the major or minor subject, the applicant will be informed at this time.

Degree Programs

Graduate Degrees Offered	Colleges or Departments
Master of Arts	All regular Departments of the College
Master of Science	Certain Departments, by arrangement
Master of Education	College of Education
Master of Business Education	Business and Economics
Master of Home Economics Education	College of Household Arts and Sciences
Master of Library Science	Library Science
Advanced (sixth-year) Certificates. These programs are planned for those who desire a year of work (30 hours) beyond the Master's degree. In some cases, the work may be regarded as terminal preparation. In others, it may be part of a plan for an eventual doctoral degree.	Art (College of Fine Arts)

Interested students may obtain a Graduate Bulletin by addressing the Dean of Admissions, Drawer A, TSCW Station, Denton, Texas. More detailed information on individual programs may be obtained by writing to the Director of the college or department of the student's major interest.

Research Program

Closely related to the increasing importance of graduate study is an augmented research program. Through this program, TSCW provides both trained personnel and authoritative information to benefit not only Texas but also the entire nation. The increased emphasis on research is apparent in all departments of the College. It is most highly developed, however, in the College of Household Arts and Sciences. Here, with the aid of grants-in-aid from individuals and from great American corporations, research of national importance is being carried on in foods and nutrition, fibers and textiles, clothing and costume design, detergency, and other areas of the Household Sciences.

SUMMER SESSION

The summer session extends over a period of twelve weeks and is an integral part of the regular college year. The session is divided into two terms of six weeks each. During each term, classes are conducted on five days of the week, Monday through Friday. The normal load for a student during each term is six or seven hours. A student, therefore, may earn a total of thirteen semester hours of college credit during the summer session.

An especially large number of advanced courses, both undergraduate and graduate, is offered during the summer session. Former students who have been compelled to interrupt studies are thus able to finish the work for their bachelor's degrees; or those who have secured their bachelor's degrees may finish the work for master's degrees in three summers.

In addition, several of the departments and colleges hold workshops of varying duration for teachers wishing to keep up to date in the materials, publications, processes, techniques, methods, and problems of their special fields. Visiting specialists as well as regular faculty members conduct the workshops.

A special attraction of the summer session is that all meals are served in air-conditioned dining rooms. For the further comfort of summer students, a considerable number of air-conditioned rooms are available to early applicants for a small additional fee. For details, see the Summer Session Bulletin.

Summer school expenses are moderate and in proportion to the charges for the regular session. They are published in the Summer Session Bulletin. For information address the Registrar, Drawer A, TSCW Station, Denton, Texas.

College of Arts and Sciences

DEPARTMENT OF BIBLE AND RELIGION

A student is permitted to elect Bible in any group of courses not to exceed twelve hours of credit. A major in this subject is not offered.

The great variety of material found in the Bible makes it of great educational value, not only in itself, but in correlation with other subjects in a student's course. In it are found some of the richest literary treasures in the English language, some of the most important history of the world, and some of the most important biographies, sermons, and orations. In it can be traced the origin and growth of some of the greatest moral, social and ethical principles.

Bible Chairs are maintained by the Texas Methodist Student Movement, the Baptist General Convention of Texas, and the Presbyterian Churches, U. S., and U.S.A. The instruction given, however, is entirely non-sectarian, and aims to secure for the students the benefits to be gained from a broader culture and a deeper spiritual life.

DEPARTMENT OF BIOLOGY

This Department offers programs leading to the Bachelor of Arts, Bachelor of Science, and Master of Arts Degrees.

Included in the Department are the divisions of Bacteriology, Botany and Zoology. Courses equally related to two or more of these divisions, but not exclusively in any one, have been classified as Biology, and may be counted for credit in either.

Programs of work with emphasis in any one of the major divisions will furnish adequate training for the teaching of biology or general science. Suitable courses in Education should be included if the minor is not completed in that field. Also recommended are courses in General Chemistry, General Physics, Field Biology and Plant Taxonomy. A minor may be chosen within the Department, or in Chemistry or Education.

These programs will also serve as preparation for graduate study. For this purpose, additional Chemistry and the choice of German as the foreign language will be advantageous.

Special sequences leading toward the fields of medicine, laboratory technology and public health will take into account the special requirements which must be met. The premedical program will conform to the requirements and recommendations of the medical colleges listed by the Association of Medical Colleges. The medical technology program requires three college years of academic work, followed by a calendar year of supervised clinical practice in the unmatched facilities of neighboring Parkland Memorial Hospital. On the completion of the four-year program, the student receives her bachelor's degree and is ready to take the examinations offered by the Board of Registry of the American Society of Clinical Pathologists for registration as a qualified medical technologist.

For a Bachelor's degree, a major in Biology requires a minimum of thirty-two semester hours in the Department. The following courses are re-

quired of all students completing a major in Biology: Biology 131-132, 232, Botany 242 and Zoology 241. Other required courses have also been established in the special sequences according to the particular needs indicated.

Biology is an excellent choice for a minor, combining well with numerous other major subjects. Here, as elsewhere in the College, the requirement is eighteen semester hours with at least six of these in advanced courses.

For the Bachelor of Arts degree, the Department offers special sequences of courses in:

Bacteriology

Botany

Zoology

Premedicine

Bacteriology and Introduction to Medical Technology

A sequence leading to the Bachelor of Science degree is also available in Bacteriology and Introduction to Medical Technology. Recommended electives include Algebra, German, Physiological Chemistry and Trigonometry.

For more information, write to Mr. Francis W. Emerson, Dean of Admissions-Registrar, Drawer A, TSCW Station, Denton, Texas. He will answer general questions and refer you to the Director of the Department for a listing of courses and specific requirements.

DEPARTMENT OF BUSINESS AND ECONOMICS

This Department offers programs leading to the Bachelor of Arts, Bachelor of Science, Master of Arts, and Master of Business Education degrees.

The curriculum of the Department of Business and Economics is designed to provide opportunity for understanding the institutional structure and behavior patterns of modern industrial society; to provide training for business careers; to train teachers of commercial work; and in collaboration with other departments to train teachers of the social studies.

For a Bachelor's degree, a major in Business requires from forty-four to fifty-five semester hours of work in the Department of Business and Economics, depending on the interests and background of the student, and on the special field in which the work is done. For the Bachelor's degree in Economics, twenty-four to thirty semester hours are required in Economics.

A minor requires eighteen semester hours, including six advanced hours, in the Department of Business and Economics.

Business Education
Economics
Foreign Trade
General Business
Merchandising
Secretarial Service
Two-Year and One-Year Certificate Programs in Secretarial Training

For more information, write to Mr. Francis W. Emerson, Dean of Admissions-Registrar, Drawer A, TSCW Station, Denton, Texas. He will answer general questions and refer you to the Director of the Department for a listing of courses and specific requirements.

DEPARTMENT OF CHEMISTRY

This Department offers programs leading to the Bachelor of Arts, Bachelor of Science, and Master of Arts degrees.

The curricula given below, lead to either the degree of Bachelor of Science or Bachelor of Arts with a major in Chemistry, or to a career as a Chemical Librarian or Secretary. They are intended to meet the needs of students who wish to find employment as chemists (analytical, clinical, and research), or to prepare for graduate work in Chemistry, or to become Chemical Secretaries or Librarians in the chemical profession.

The curriculum in General Science is intended primarily for those who wish to teach science in the secondary schools. It also meets the needs of students who wish a broad, general training with a science background, and is designed particularly for those preparing for an engineering career.

For a Bachelor's degree in Chemistry, a major must complete thirty-five to forty semester hours of Chemistry; twelve semester hours of Mathematics; twelve semester hours of Biology; twelve semester hours of German; and, eight semester hours of Physics, in addition to the general college requirements. These requirements are in accord with the recommendations of the American Chemical Society. The requirements for the other degree programs are more flexible and are dependent on the interest, background, and field of specialization of the student.

The Department offers specialized courses in:

Chemistry

Preparation for Chemical Librarian or Secretary

General Science

A minor in Chemistry requires eighteen semester hours of work, six of which must be advanced. Suitable minors may be taken in Chemistry or General Science. Upon graduation, if a proper sequence of courses has been selected, the Department may recommend these students for positions as laboratory technicians or assistants.

For more information, write to Mr. Francis W. Emerson, Dean of Admissions-Registrar, Drawer A, TSCW Station, Denton, Texas. He will answer general questions and refer you to the Director of the Department for a listing of courses and specific requirements.

DEPARTMENT OF ENGLISH

This Department offers programs leading to the Bachelor of Arts and the Master of Arts degrees and to the post-M.A. program for teachers and graduates.

For a B.A. degree, a major in English requires English 435 and fifteen additional advanced semester hours in the Department beyond the twelve semester hours in English required of all candidates for a degree. For a minor in English, the requirement is six advanced semester hours in the Department beyond the twelve semester hours in English required of all candidates for a degree.

For the M.A. degree and for the post-M.A. work in English, see the Graduate Bulletin.

The Department offers special degree-plans for students interested in careers in teaching, writing, foreign service, and business.

For more information, write to Mr. Francis W. Emerson, Dean of Admissions-Registrar, Drawer A, TSCW Station, Denton, Texas. He will answer general questions and refer you to the Director of the Department for a listing of courses and specific requirements.

DEPARTMENT OF FOREIGN LANGUAGES

This Department offers programs leading to the Bachelor of Arts and Master of Arts degrees.

The Department of Foreign Languages offers majors in French and Spanish. Courses must be chosen to include at least twelve to eighteen advanced hours in foreign languages. If the minor subject is also a foreign language, twelve advanced hours are required in the major subject and six advanced hours in the minor subject.

Minors may be chosen from French or Spanish. A minor in one of the above consists of at least eighteen semester hours above the first year, including six advanced semester hours.

The Department offers specialized sequences in French, Spanish and Latin American Studies.

For more information, write to Mr. Francis W. Emerson, Dean of Admissions-Registrar, Drawer A, TSCW Station, Denton, Texas. He will answer general questions and refer you to the Director of the Department for a listing of courses and specific requirements.

FOREIGN LANGUAGE REQUIREMENTS FOR B.A. DEGREE

In meeting the foreign language requirements for the B.A. degree, students should observe the following: Twelve hours of Foreign Language are required in addition to two admission units. At least six of these hours must be in a second year of a foreign language. Two foreign languages may not be begun in the same session.

A student who presents two admission units in French, German,

Latin, or Spanish may take for credit no course lower than French 133, German 133, Latin 133 or Spanish 133.

A student who presents three or four admission units in French, German, Latin, or Spanish may take for credit no course lower than French 233, German 233, Latin 233, or Spanish 233.

For more information, write to Mr. Francis W. Emerson, Dean of Admissions-Registrar, Drawer A, TSCW Station, Denton, Texas. He will answer general questions and refer you to the Director of the Department for a listing of courses and specific requirements.

DEPARTMENT OF HISTORY AND GOVERNMENT

This Department offers programs leading to the Bachelor of Arts and Master of Arts degrees either in History or in Government.

For a Bachelor's degree, a major in History requires thirty semester hours of History. For a Bachelor's degree, a major in Government requires twenty-four to thirty semester hours of Government, depending on the amount of work done in allied fields.

The Department also offers a minor either in History, or in Government, or in a combination of either with another social science. A minor in History requires either eighteen semester hours of History (six hours advanced), or twelve hours of History (six hours advanced) and six hours of Economics, Sociology, or Government. A minor in Government requires either eighteen semester hours of Government (six hours advanced), or twelve hours of Government (six hours advanced) and six hours of Economics, Sociology, or History.

For more information, write to Mr. Francis W. Emerson, Dean of Admissions-Registrar, Drawer A, TSCW Station, Denton, Texas. He will answer general questions and refer you to the Director of the Department for a listing of courses and specific requirements.

DEPARTMENT OF JOURNALISM

This Department offers programs leading to the Bachelor of Arts and Bachelor of Science degrees.

Preparation for a career in journalism is divided into two phases.

First, a broad general education is emphasized. About three-fourths of the four-year program is devoted to liberal arts courses to provide a background of scholarship essential to success in professional journalism.

Second, professional training is offered, with maximum laboratory practice designed to prepare women for careers in newspaper writing, magazine work, public relations positions, advertising, or radio work.

Most courses may be taken as electives. For information consult with the Director of the Department during registration.

For the Bachelor's degree, a major in Journalism requires thirty semester hours of work in the Department. Specific courses depend on the

interests and background of the student, and on the special field in which the work is done.

The Department offers specialized sequences of courses in:

News-Editorial Writing
Advertising
Journalism-Home Economics
Radio

For more information, write to Mr. Francis W. Emerson, Dean of Admissions-Registrar, Drawer A, TSCW Station, Denton, Texas. He will answer general questions and refer you to the Director of the Department for a listing of courses and specific requirements.

DEPARTMENT OF MATHEMATICS

This Department offers programs leading to the Bachelor of Arts and the Master of Arts degrees.

For a Bachelor's degree, a major requires thirty semester hours of Mathematics, eighteen of which must be advanced, and at least six hours of Science. A minor in Science or Education is recommended.

A minor in Mathematics consists of eighteen semester hours, six of which must be advanced.

A student who has not had a course in Trigonometry should, in general, take Mathematics 132 and Mathematics 133 or 134. Others should take 134 and 231. Business students may prefer to take Mathematics 136 and 137. Some students may prefer Mathematics 138 and 139.

If either Solid Geometry or Trigonometry is offered for admission, surplus admission units may be converted into college credit by completing, with a grade of B or higher, Mathematics 134 and 231. Two hours of credit may be obtained in Solid Geometry, and two in Trigonometry. At least 15 1-2 admission units must be presented to receive two hours of credit and 16 admission units to receive four hours of credit.

For more information, write to Mr. Francis W. Emerson, Dean of Admissions-Registrar, Drawer A, TSCW Station, Denton, Texas. He will answer general questions and refer you to the Director of the Department for a listing of courses and specific requirements.

DEPARTMENT OF OCCUPATIONAL THERAPY

Occupational Therapy may be classified in the medical-social field. It is "an objective type of treatment prescribed by the physician to hasten the patient's recovery from disease and injury." Occupational therapists adapt activities to meet the patient's physical and psychological needs, and serve in a variety of hospitals and treatment centers.

This program has been approved by the American Occupational Therapy Association and the American Medical Association.

Two types of programs leading to Bachelor of Arts and Bachelor of Science degrees in Occupational Therapy, and an Advanced Standing Certificate are offered in this Department.

The B.S. degree is awarded upon completion of Methods, Theory and Practice of Occupational Therapy, Medical Lectures, required courses in Psychology and Sociology, basic and applied science and manual and creative arts. These subjects are in addition to courses required of all students at this College. The B.A. degree is awarded upon fulfillment of the college requirements as set forth in this catalogue. A certificate is awarded upon completion of a minimum of nine months of clinical affiliation.

The Advanced Standing Certificate program is for students who have received a bachelor's degree in a related field and who have completed basic courses in Anatomy and Physiology, Design, Psychology and Sociology. It includes methods and theory of Occupational Therapy, Anatomy and Kinesiology, Medical Lectures and skills to supplement those the student presents. This course requires from sixteen to eighteen months to complete. Upon the successful completion of this course the student will be given a certificate and be entitled to take the National Registration Examination.

Students who register in the above programs are required to present and maintain evidence of physical, mental, and emotional fitness to meet the standards of this profession.

Credit for one clinical assignment must be completed before the student receives her degree, and all must be completed before the student receives a certificate which entitles her to take the National Registration Examination which is given twice a year by the American Occupational Therapy Association.

For more information, write to Mr. Francis W. Emerson, Dean of Admissions-Registrar, Drawer A, TSCW Station, Denton, Texas. He will answer general questions and refer you to the Director of the Department for a listing of courses and specific requirements.

DEPARTMENT OF PHYSICS

This Department offers programs leading to the Bachelor of Arts and Bachelor of Science degrees.

The curriculum offered is intended to meet the needs of the student who wishes to find employment as a physicist in industrial or academic laboratories, to prepare for graduate work in Physics, or to teach on the secondary school level.

For a Bachelor's degree, a major must complete thirty to thirty-five semester hours of work in the Department, in addition to the general college requirements.

A minor in Physics requires eighteen semester hours of work, six of which must be advanced. Suitable minors may be taken in Physics or General Science.

For more information, write to Mr. Francis W. Emerson, Dean of

Admissions-Registrar, Drawer A, TSCW Station, Denton, Texas. He will answer general questions and refer you to the Director of the Department for a listing of courses and specific requirements.

DEPARTMENT OF SOCIOLOGY

This Department offers programs leading to the Bachelor of Arts, Bachelor of Science, and Master of Arts degrees.

The student who majors in Sociology, in addition to obtaining a broad background in general education essential for citizenship and community participation generally selects one of a number of vocational goals, and plans her course of study to prepare her for that objective. The principal vocational goals towards which a major in Sociology may lead are: (1) commercial and industrial work where a fundamental knowledge of human relations is required; (2) social work, which includes family case work, child welfare, probation work, child guidance clinics, school social work, and social work with the handicapped in children's institutions and homes; (3) religious work: directors of young people's work, directors of religious education, pastor's assistants, etc., (4) social welfare, which includes group work, public welfare, and work with other health and welfare agencies and institutions; (5) teaching sociology or social science at either the secondary or college level.

The graduate major in Sociology leads to vocational objectives similar to those listed in connection with the undergraduate major except that persons with advanced training may expect to achieve positions requiring greater competence and skills as well as providing greater rewards.

For a Bachelor's degree, a major in Sociology requires thirty-six semester hours of work in the Department.

For a Bachelor's degree, a minor in Sociology requires either eighteen semester hours of Sociology, or twelve hours of Sociology and six hours of Economics, History, or Government. Six of the hours in Sociology must be in advanced courses.

The Sociology Department offers specialized sequences of courses in:

General Sociology

Human Relations in Industry

Pre-Social Work

Religious Education and Church Service

Social Welfare

Teaching of Sociology or Social Science

For more information, write to Mr. Francis W. Emerson, Dean of Admissions-Registrar, Drawer A, TSCW Station, Denton, Texas. He will answer general questions and refer you to the Director of the Department for a listing of courses and specific requirements.

DEPARTMENT OF SPEECH

This Department offers programs leading to the Bachelor of Arts, Bachelor of Science, and Master of Arts degrees.

The Department emphasizes speech training as a means of social adaptation and control. It offers also an opportunity for the student to specialize in the artistic and scientific fields of speech activity. The Speech curriculum has been so arranged as to meet the various needs of elective students as well as those who major or minor in Speech.

Departmental features include a College Theater, an air-conditioned Theater-in-the-Round, a Children's Theater, a Speech Clinic, student recitals, story hours, student teaching, and a campus radio broadcasting studio in which radio-TV broadcasts are developed and presented by CBS station KRLD in Dallas, Texas.

For a Bachelor's degree, a major in Speech requires thirty-seven to forty-seven semester hours of work in the Department, depending on the interests and background of the student, and on the special field in which the work is done.

A general minor in Speech requires eighteen semester hours of Speech of which six must be advanced. A minor in Speech Correction requires Speech 132, 238, 338b, 338c, 438a, 432, 433 (a total of twenty-one hours).

The Department offers specialized sequences of courses in:

Drama-Interpretation

Radio-Journalism

Speech Education

Speech Correction

For more information, write to Mr. Francis W. Emerson, Dean of Admissions-Registrar, Drawer A, TSCW Station, Denton, Texas. He will answer general questions and refer you to the Director of the Department for a listing of courses and specific requirements.

College of Education

The College of Education offers programs leading to the Bachelor of Arts, Bachelor of Science, Master of Arts, and Master of Education degrees.

For a Bachelor's degree a major in the various divisions of the College of Education requires from thirty to sixty semester hours of work, depending on the interests and background of the student, and on the special field in which the work is done.

For a minor, eighteen semester hours in a sequence approved by the College.

The College of Education offers specialized sequences of courses in:

General Education

Kindergarten-Primary Education

Upper Elementary Education

Secondary Education

Special Education for Exceptional Children

Education for the Deaf

Counseling and Guidance Education

Philosophy

Psychology

For more information, write to Mr. Francis W. Emerson, Dean of Admissions-Registrar, Drawer A, TSCW Station, Denton, Texas. He will answer general questions and refer you to the Director of the College for a listing of courses and specific degree requirements.

College of Fine Arts

DEPARTMENT OF ART

This Department offers programs leading to the Bachelor of Arts, Bachelor of Science, and Master of Arts degrees.

The three-story Art Building devoted entirely to Art, contains twenty-seven large modern studios and galleries, a library, lounge, lecture room, and photography dark rooms. These rooms house all the unusual equipment needed in the various art fields.

In the Art Department library and in the general college library is housed an extensive collection of books and illustrative art material. Available also are 7,000 photographs and reproductions as well as several thousand slides.

Seven art collections form the nucleus of the Art Museum, the largest group being an outstanding collection of original Primitive Art pieces. Four large galleries are used for traveling exhibitions of important American and foreign art.

In all of the major groups in Art, there is a core of subjects which give basic experience in art whether professional or avocational. There is also a core of academic subjects. In addition, there are courses particularly related to the various fields of art as indicated in each group. These major courses are professional in their approach and intent.

For a Bachelor's degree, a major in Art requires from thirty to sixty semester hours of work in the Department, depending on the interests and background of the student, and on the special field in which the work is done.

For a Bachelor's degree, a minor in Art requires eighteen or twenty semester hours of work in the Department, six hours of which must be advanced.

Any course in the Department of Art may be selected by non-art majors who have the necessary prerequisites for that course.

The Department offers specialized sequences of courses in:

- Advertising Design
- Art Education
- Ceramics
- Costume Design and Fashion Illustration
- History of Art
- Interior Design
- Jewelry and Metalwork
- Painting
- Photography
- Sculpture

For more information, write to Mr. Francis W. Emerson, Dean of Admissions-Registrar, Drawer A, TSCW Station, Denton, Texas. He will answer general questions and refer you to the Director of the Department for a listing of courses and specific requirements.

DEPARTMENT OF MUSIC

The Department of Music offers programs of studies leading to the Bachelor of Arts, the Bachelor of Science, and the Master of Arts degrees.

Texas State College for Women was the first institution of higher learning in Texas to offer a degree in Music and through the years has developed a wide assortment of studies for both undergraduates and graduates. The Department is housed in a beautiful, modern building. Studios and practice rooms are spacious and well equipped. A large number of orchestral instruments are available to students.

Class recitals, in which students perform for each other, are given each week. Opportunity for public performance is given when the students are sufficiently prepared. The faculty presents a recital series each year and the Concert and Drama Series brings to the campus leading concert artists.

No extra tuition is charged for any courses in Music except for individual instruction in applied music. There is no extra charge for practice rooms.

For a Bachelor's degree, a major in the Department of Music requires from forty to sixty semester hours of work in the department, depending upon the interests and background of the student, and on the special field in which the work is done.

A special four-year plan of study leads to the Bachelor's degree with a major in Music Therapy. Students who possess high scholastic standing, sound musicianship, good health, and emotional stability may be admitted to this study. Internship in an approved hospital will be required during the final semester. The Music Department will furnish a course outline upon request.

A minor in Music requires eighteen semester hours of Music, including six advanced hours.

The Department offers specialized sequences of courses in:

General Music

General Music Education

Instrumental Music Education

Music Therapy

Applied Music

Organ

Piano

Violin

Violoncello

Voice

Band and Orchestra Instruments

For more information, write to Mr. Francis W. Emerson, Dean of Admissions-Registrar, Drawer A, TSCW Station, Denton, Texas. He will answer general questions and refer you to the Director of the Department for a listing of courses and specific requirements.

College of Health, Physical Education and Recreation

The College of Health, Physical Education, and Recreation offers programs leading to the Bachelor of Arts, Bachelor of Science, Master of Arts, Doctor of Philosophy, and Doctor of Education degrees.

Four semester hours of credit in Health and Physical Education are required by the College for graduation. This requirement is met during both semesters of the freshman and sophomore years. At the beginning of each of these years, the student enrolling in a Physical Education class undergoes a health examination. Upon the basis of this examination, the College Physician classifies the student for regular, medium, or light activity; rest; or posture.

Students not majoring in Health, Physical Education, and Recreation who are classified for regular activity may choose any course designated as Physical Education 110, 111, 112 or 115 provided that during the four semesters the selection includes one course in dance and one course in either swimming or sports; students classified for medium or light activity may enroll in the Physical Education courses recommended by the College of Health, Physical Education and Recreation and the College Physician; students classified for rest must enroll in courses designated as Physical Education 113Re; and students classified for posture must enroll in Physical Education 114.

Students enrolled in courses in Physical Education are required to have regulation costumes for various activity classes. The student also is required to furnish such equipment as tennis rackets and balls, badminton rackets and shuttlecocks, and arrows. Swimming suits, towels, and equipment for team sports are furnished by the College. A special fee of six dollars (\$6.00) a semester is charged for bowling; five dollars (\$5.00) a semester for rifle shooting; and five dollars (\$5.00) a semester for golf. All fees are subject to change if conditions warrant.

For a Bachelor's degree, a major in the College of Health, Physical Education, and Recreation requires from forty-seven to fifty-six hours of work in the College, depending on the interests and background of the student, and on the special field in which the work is done.

For a major in Recreation, students may concentrate in one of the following six areas of specialization: Art, Botany and Biology, Dance, Music, Speech and Drama, and Sports and Aquatics.

For a minor, the College of Health, Physical Education, and Recreation requires eighteen hours of work in the field in which the work is done. Specialized sequences of courses lead to minors in:

Health, Physical Education, and Recreation—General

Health, Physical Education, and Recreation—for Teachers in Elementary Schools

Health, Physical Education, and Recreation—For Teachers in Secondary Schools

Physical Education for Occupational Therapy Majors
Recreation

The College of Health, Physical Education, and Recreation offers specialized sequences of courses in:

Dance

Health Education

Health, Physical Education, and Recreation

Recreation

Recreation Administration

Recreational Therapy

RECREATIONAL THERAPY

Recreational Therapy, a relatively new area in the field of recreation, is developing rapidly in hospitals sponsored by the federal government as well as by private agencies. This development provides new vocational opportunities for the trained recreationalist. Many hospital administrators agree that creative recreational activities have not only indirect but direct therapeutic value for the patient.

The nature of the requirements for the student with a major in Recreational Therapy at the Texas State College for Women provides a unique opportunity for specialization in this rapidly developing area.

BASIC COURSES PREREQUISITE TO PHYSICAL THERAPY

There is an increasing demand for physical therapists in departments of Health and Physical Education in educational institutions, with physicians in private practice, in clinics, and in private and governmental hospitals.

The course prescribed for major students in Health, Physical Education, and Recreation at the Texas State College for Women includes basic subjects which are prerequisite to clinical training in physical therapy. A graduate from this institution with a major in this field is well prepared to enter any school of physical therapy in the country. Announcements from the United States Civil Service Commission state that "women educated in the basic sciences of physical education are among the few qualified for training in the field of Physical Therapy" and list a degree in physical education from an accredited institution among the important qualifications for the special hospital training required for a license or a commission in this area.

For more information, write to Mr. Francis W. Emerson, Dean of Admissions-Registrar, Drawer A, TSCW Station, Denton, Texas. He will answer general questions and refer you to the Director of the College for a listing of courses and specific degree requirements.

College of Household Arts and Sciences

The College of Household Arts and Sciences offers programs leading to the degrees of Bachelor of Arts, Bachelor of Science, Master of Arts, Master of Science, Master of Home Economics Education, Doctor of Philosophy, and Doctor of Home Economics Education.

Texas State College for Women developed the first organized curriculum in Home Economics in Texas and one of the earliest in the United States. The objectives of the College of Household Arts and Sciences are two-fold: first, to train young women for better personal and family living; and second, to equip them for careers in one of the several fields of household arts and sciences. In no other academic area can these two objectives be met at one and the same time.

The College of Household Arts and Sciences is housed in a new four-story modern building—one of the finest in the country, with a separate large building for research as well as additional research facilities elsewhere on the campus, and a modern, separate nursery school.

Both instruction and research personnel—all specialists in their fields of activity—constitute the faculty of the College of Household Arts and Sciences.

The College of Household Arts and Sciences offers specialized curricula based on sequences of courses in the following:

- Child Development and Nursery Education
- Clothing and Costume Design
- Clothing and Textiles
- Foods and Nutrition.
- Home Economics Education
- Home Management
- Institution Management
- Home Economics and Journalism
- Home and Family Life
- Home Demonstration

Minors may be selected in any of the above areas, in General Home Economics, or in other Colleges and Departments of the Texas State College for Women.

For more information, write to Mr. Francis W. Emerson, Dean of Admissions-Registrar, Drawer A, TSCW Station, Denton, Texas. He will answer general questions and refer you to the Dean of the College for a listing of courses and specific degree requirements.

School of Library Science

This School offers programs leading to the Bachelor of Arts, Bachelor of Science, Master of Arts and Master of Library Science degrees.

The basic professional preparation for librarianship is a five-year program of college education culminating in a Master of Arts or a Master of Library Science degree. At TSCW the professional library science courses are given in the last three of these five years. In the first two years of college, students should acquire a broad general education.

Students desiring to meet minimum requirements for school library work, or for other limited purposes, may do so by combining an undergraduate minor in Library Science with a major in Education or some other appropriate department. Those desiring the more thorough preparation required by some schools, or for other purposes, may choose an undergraduate Library Science major. For a Bachelor's degree, a major in the School of Library Science requires thirty semester hours of work in Library Science and related fields. In both of these cases, the program may be planned to serve as undergraduate preparation for the Master of Arts or the Master of Library Science degree required for a specialized career in librarianship.

The School is accredited by the American Library Association, the Texas Education Agency, and the Southern Association of Colleges and Secondary Schools.

All of the professional courses are repeated each summer. All of the Library Science courses must be taken in residence. No correspondence courses will be accepted; none are given.

The School offers specialized sequences of courses in:

College and University Librarianship

Public Librarianship

School Librarianship

Special Librarianship

For detailed information write to the Director, Department of Library Science.

For more information, write to Mr. Francis W. Emerson, Dean of Admissions-Registrar, Drawer A, TSCW Station, Denton, Texas. He will answer general questions and refer you to the Director of the School for a listing of courses and specific degree requirements.

College of Nursing

The program of the College of Nursing is pointed toward the development of a superior professional nurse. The student receives the best of preparation in the techniques of her profession. At the same time, she is prepared to accept first-level staff positions in nursing, and to act intelligently and effectively as a citizen and as a leader in her community.

The program combines the finest of faculties with the finest of physical resources. After enjoying for eleven months the facilities of TSCW, the student moves for the major part of her professional instruction to the new \$11,000,000 plant of the Parkland Memorial Hospital. Parkland is the general hospital unit of the Dallas City-County Hospital System with 588 beds and 60 bassinets. It is the primary teaching hospital for the University of Texas Southwestern Medical School.. Parkland is accredited by the Joint Commission on Accreditation of Hospitals and fully accredited by the Council on Medical Education and Hospitals of the American Medical Association. The proximity of this magnificent teaching hospital to the TSCW campus will allow full integration of the student's program and continuous participation in many campus activities.

In the fourth, or senior year, the student returns to the TSCW campus for a final semester, and joins her class to receive her Bachelor of Science degree in the regular June Commencement. Thus, in less than four calendar years, she meets all requirements for her baccalaureate degree and for her professional program, and is ready to take the State Board examination for licensure as a Registered Nurse.

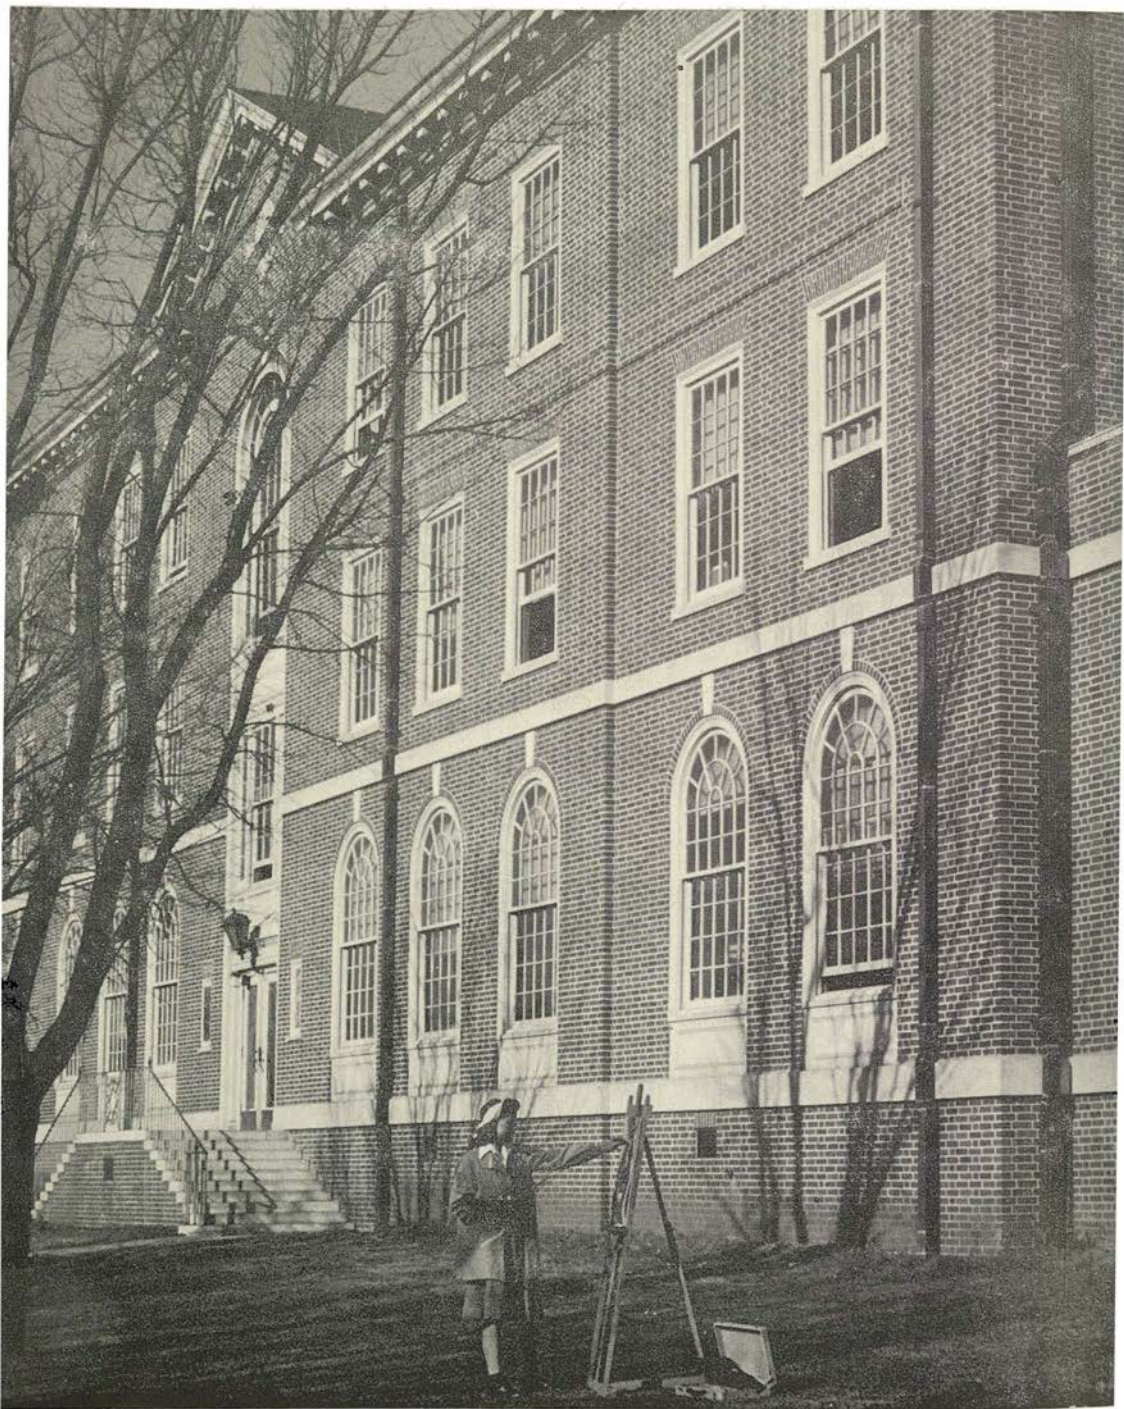

One of the most attractive features of the program is its remarkably low cost. In her first academic year and summer, and again in her final semester, the student pays only the low regular charges carried by all TSCW students. During approximately two and one-half years at Parkland Memorial Hospital, she pays only the small basic charge of College tuition and fees, while expense of her room, meals, uniforms and laundry are borne by the Hospital.

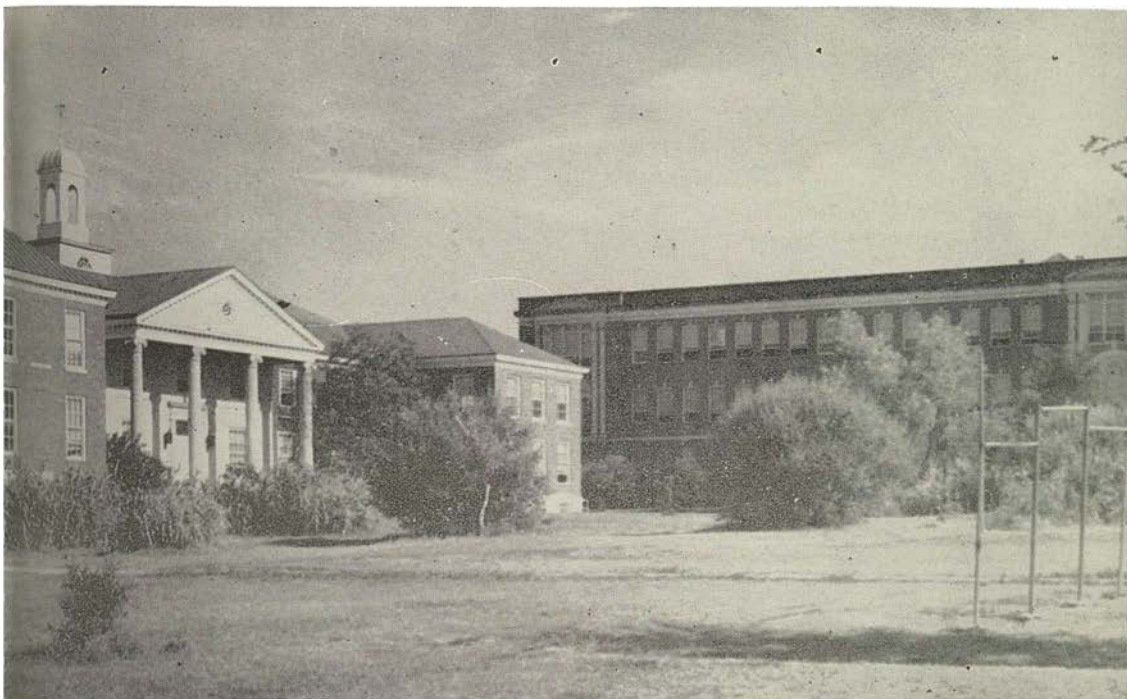

For more information, write to Mr. Francis W. Emerson, Dean of Admissions-Registrar, Drawer A, TSCW Station, Denton, Texas. He will answer general questions and refer you to the Director of the College for a listing of courses and specific degree requirements.
