Denton, Texas

EXTENSION SERVICE

ANNOUNCEMENT

1940-1941

PURPOSE OF EXTENSION SERVICE

One of the channels through which the College comes into direct contact with the people is through its Department of Extension. Those who are privileged to attend the classroom and laboratory work of the College constitute only a small proportion of the citizens who have a just claim on the direct services of the institution. Furthermore, the resident students themselves are benefitted through the extension service, because the close relationship thus established between the College and the home, creates and fosters a sympathetic cooperative understanding of their common problems and needs, and, therefore, results in an increased efficiency on the part of the College in giving both to its resident students and to the citizens at large, the educational service most needed. The purpose, then, of the Extension Service is to assist in the artistic and literary advancement of the State through its cultural programs, and to give to the public in non-technical form the practical information which it has been able to assemble through the research and investigation of its faculty of experts and specialists.

SCOPE AND WORK OF THE COLLEGE

The Texas State College for Women is a standard college conferring the degrees of Bachelor of Arts, Bachelor of Science, and Master of Arts. The courses of study meet all the requirements of the standard liberal arts colleges and universities, and at the same time they include technical and industrial training which prepares for remunerative vocations and for the more practical phases of life. The College is a member of the Association of Texas Colleges, The Southern Association of Colleges and Secondary Schools, The Association of American Colleges, The American Association of University Women, The American Council on Education, The American Library Association, and is approved by the Association of American Universities.

TEXAS STATE COLLEGE FOR WOMEN

The College offers more than eighty groups of courses leading to the degrees of Bachelor of Arts or Bachelor of Science. These groups of courses include majors in the following subjects: Bacteriology, Botany, Pre-Medical Course, Nursing, Zoology, Chemistry, Industrial Secretary and Laboratory Assistant in Chemistry, Economics, English, History of Art, French, Latin, Spanish, Government, History, Library Science, Mathematics, Physics, Sociology, Bacteriology and Clinical Pathology, Religious Service, General Science, Accounting and Business, Business Education, Foreign Trade, General Business, Merchandizing, Secretarial Studies, Applied Design, Art Education, Art in Advertising and Industry, Ceramics, Costume Design, Interior Decoration, Painting, Health and Physical Education, General Home Economics, Home Economics and Journalism, Institution Management, Clothing and Textiles, Foods and Nutrition, Home Economics Education (Vocational Home Economics), Home Demonstration, Journalism, Music Education (Public School Music), Instrumental Instruction, Organ, Piano, Violin, Voice, Education, Intermediate-Grammar-Grade Education, Kindergarten-Primary Education, Speech.

Beginners' course in Freshman subjects are offered during both the First and the Second Semester of the regular session; the Mid-Winter High School Graduate can therefore enter college the Second Semester and secure a full program of College work. This applies also to the Summer Session.

Students having completed certain designated college courses may, without further examination, receive, from the State Department of Education, State Teachers' Certificates.

The College gives adequate training for many of the best vocations now available to women. Through a faculty advisory system assistance is given to each student in planning a program of study especially adapted to her needs.

KINDS OF EXTENSION SERVICE OFFERED

The kinds of service offered by the Department have been planned and developed in response to the requests that have come from the people of the State, consistent attempt having been made at all times to adapt the form of the service to meet the requirements of those asking for it. The staff of the Extension Service is composed of lecturers, artists, and demonstrators, who are members of the regular instructional force of the College faculty. The follow-

EXTENSION SERVICE

ing are the different kinds of service rendered:

- (1) Compiling, publishing, and distributing bulletins on subjects of special interest to the home and the community.
- (2) Lectures on the social, practical, educational, and literary subjects from the various departments of the College.
- (3) Lectures and demonstrations of important home making activities given by trained and experienced experts from the Department of Home Economics and of Rural Arts.
- (4) Music recitals and speech recitals from the Department of Music and the Department of Speech, and illustrated lectures from the Department of Biology and the Department of Fine and Applied Arts.
- (5) Lecture demonstrations are offered by the Department of Health and Physical Education in the fields of dance, sports, and health education.
- (6) Services of judges for debates and oratorical contests, and for contests in Home Economics, Fine and Applied Arts, Rural Arts, and for such other contests as are usually held in the community or at county and State fairs.

WOMEN'S CLUBS, PARENT-TEACHER ASSOCIATIONS, AND OTHER ORGANIZATIONS

Supplementary to these more formal types of service, the Department of Extension gives co-operative assistance to clubs, civic improvement leagues and other organizations which have community welfare as their objectives. The women's clubs of the State receive assistance in the form of year books, outlines of study, bibliographies, and, in a number of instances, library books and other material from which to prepare lectures and club papers. The Department also acts as a clearing house for assembling and distributing valuable information and suggestions in response to individual inquiries on concrete problems, and collects data and answers questionnaires in the promotion of educational matters.

BULLETINS

The bulletins issued by the Department of Extension are writ-

TEXAS STATE COLLEGE FOR WOMEN

ten by members of the regular college faculty, each author being a recognized expert in his or her chosen field. The subject matter constituting the bulletin has, in every case, a vital bearing on home and community life as is indicated by the titles listed below. The bulletins are distributed free of charge upon individual request for single copies. However, if more than one copy of the same bulletin is desired by any one person, or if the bulletins are to be used by members of a class or club a charge is made of twelve cents (12c) a copy. This pays for the actual cost of this publication. It has been found necessary to make this charge because the demand for the bulletins has far outgrown the ability of the service to finance their unrestricted free distribution. It is suggested that when the bulletins are desired by a class or club, some one member of the organization make the order for the whole number of bulletins required, and that the money be sent in the form of a money order payable to the order of the Texas State College for Women, rather than in postage stamps.

thony Crozat, a French Banker, who sent out Saint Denis to explore Texas and establish forts, and thus take possession of Texas for France. Saint Denis stopped at a Mission and met a Spanish senorita, and fell in love with her. The Spanish governor also fell in love with this girl. Saint Denis and the Spanish Governor quarreled, and the Frenchman was placed in prison and nearly starved to death. His Spanish sweetheart however was true to him and succeeded in getting him out and they were married.

The members of the music faculty give, as Extension Service, piano recitals with interpretative talks, song recitals, violin recitals, and joint programs of voice and piano, and violin and piano.

TEXAS STATE COLLEGE FOR WOMEN

DEPARTMENT OF SPEECH

Lectures and Recitals

Members of the faculty of the Department of Speech give lectures and recitals on modern poetry and drama, and related subjects. Suggested topics as follows:

- Trends in the Theatre
- Broadway in Review
- Book and Play Reviews
- Modern British Poetry
- Improving Your Speech
- The Child and Speech Defects

JUDGING FOR CONTESTS

Expert service is given to schools, or to community, county, or State fairs, in judging exhibits in dairy or poultry products, in foods, textiles, and clothing and in fine and applied art. Judges are furnished also for interscholastic debates and oratorical contests.

The College makes no charge for its extension service, but it is expected that the community requesting such service will meet the local expense incurred in securing a meeting place, in the local advertising of the occasion, and in furnishing supplies for demonstrations. It is agreed by those requesting extension service that no charge will be made for admission of the general public.

Communities wishing to arrange for demonstrations, lecturers, or musicians, should allow ample time for correspondence concerning the kind of program desired; however, such programs can be arranged for within a week's notice, if necessary.

The Department of Extension wishes to emphasize its willingness to serve the State in every way possible, and cordially invites inquiry for any additional information not contained in this announcement.

Address (MISS) LILLIAN HUMPHRIES
Director, Department of Extension
Texas State College for Women
Denton, Texas
