## WARTIME AND POSTWAR PROBLEMS

**WARTIME** living has presented new problems in health education, physical education, and recreation. In the school, the need for a re-emphasis on **fitness** in every area of the curriculum is apparent; the scarcity of materials and the subsequent **limitations in equipment** call for improved methods in the care and repair of game, sports, dance, and aquatics equipment; **conditioning** activities are supplementing physical education activities; and the **shortage of qualified teachers** presents a serious problem which demands immediate attention. The community is facing wartime problems with reference to **recreation**; the increase in juvenile delinquency brings the realization that recreation for the young adolescent is often inadequate. The need for **trained leaders in recreation** is also felt by other community groups, and by national organizations, such as the United Service Organization and the American Red Cross.

**POSTWAR** problems will be as challenging as those of today. Already the cry for more effective **school health and physical education** is being heard. **Therapy**, including Recreational, Physical, and Occupational Therapy,\* will be necessary for men and women returning from active service in the armed forces. Communities will be faced with the task of planning recreation for civilians with increased time for leisure and relaxation. The steady and rapid growth of interest in **camping and outing** will demand trained counselors.

The task ahead calls for re-examination of existing knowledge in the fields of health education, physical education, recreation, therapy, and camping as well as an emphasis upon the preparation of trained personnel in these areas. Summer study provides an opportunity for the **High School Graduate** to earn college credit toward a degree in health, physical education, and recreation. This degree represents preparation for leadership in health education, physical education, recreation, and camping, and accepted prerequisites required for postgraduate training for a license in Physical and Recreational Therapy. **College Graduates** with a degree in health, physical education, and recreation will find the study of the new and improved programs a salutary and worthwhile supplement to their undergraduate study. Summer study affords opportunities for group discussion, research, and practical laboratory experience invaluable to the individual meeting new situations created by the war, and anticipating postwar planning in his school and community.

\*A major in Occupational Therapy is sponsored by the Department of Art of the College.

## SUMMER STUDY AS PREPARATION

### FOR WARTIME AND POSTWAR LEADERSHIP

The courses described below have been planned with an emphasis upon preparation for meeting wartime and postwar problems by the Department of Health, Physical Education, and Recreation for the Summer Session, 1944. Other graduate and undergraduate courses offered by the Department are listed in the complete summer session bulletin of the College, which will be sent upon request.

#### SPORTS

Physical Education 331

An undergraduate course in the theory of and organization for sports in wartime and postwar school, camp, and community programs. The course may be taken for one, two, or three hours credit depending upon the sports selected. Sports include: volleyball, softball, basketball, hockey, soccer, speedball, and tennis.

#### RECREATION

Recreation 221, 421, and 537

Undergraduate and graduate courses in recreation emphasizing the function of recreation in postwar planning with practical application in the planning of playnights, and teen canteen and other community recreation projects.

#### CAMPING AND OUTING

Physical Education 222

A course preparing leaders for the expanding programs of camping and outing.

#### THERAPY—HEALTH EDUCATION

Health Education 115, 215, 233, 234, 332, and 324

Courses in first aid, anatomy, kinesiology, health education, and corrective physical education required for the degree in health, physical education, and recreation which is basic to postgraduate training in Physical and Recreational Therapy.

Health Education 533

A graduate course in corrective physical education important to the teacher preparing for improved service in the new programs of health and physical education.

#### AQUATICS

Physical Education 326, 412, and 512

Courses presenting current theories and practices for teaching and organizing aquatic programs in schools, camps, and communities.

#### DANCE

Physical Education 312, and 511

Undergraduate and graduate courses in folk, modern, and tap dance, emphasizing the place of dance in wartime and postwar school and recreation programs.

#### HEALTH AND PHYSICAL EDUCATION FOR THE ELEMENTARY SCHOOL

Physical Education 317

Health Education 236

Courses in health and physical education for the teacher in the elementary school.

**VACATION FACILITIES**

**TEXAS STATE COLLEGE FOR WOMEN**

The College affords unusual opportunities in recreation for students enrolled for the Summer Session. In addition to college picnics, playnights, movies, and other entertainments, facilities on the campus which provide numerous vacation activities include:

- |   |  |  |
|---|--|--|
| Indoor swimming pool                                    | The Student Union Building with dance studios, ballroom, and large recreation room | Rifle range                              |
| Outdoor swimming pool and sandy beach                   | Tennis courts  | Badminton courts                         |
| Wooded area and cabins for outings                      | Hockey fields  | Basketball courts                        |
| Cement terrace for outdoor dancing, skating, and tennis | Softball diamonds  | Riding stables and trails                |
|   | Archery range  | Gymnasium                                |
|   |  | Camp at Lake Dallas                      |
|   |  | Eighteen-hole golf course and club house |

# PREPARE FOR POSTWAR NEEDS

## Postwar Planning Points To Needs For Trained Personnel

### RECREATION

Extended recreation programs command directors in

Teen Canteens  
Industrial Organizations  
Community Recreation  
United Service Organizations  
American Red Cross  
Service Clubs

### THERAPY\*

Increased efforts toward rehabilitation of returning service men require

Occupational Therapists  
Physical Therapists  
Recreational Therapists

\*Prerequisites for advanced study and a license in Physical Therapy, and for training in Recreational Therapy are met in the Bachelor's Degree in Health, Physical Education, and Recreation offered by the Department of Health, Physical Education, and Recreation; and a major in Occupational Therapy is sponsored by the Department of Art of the College.

### SCHOOL HEALTH AND PHYSICAL EDUCATION

Improved and compulsory programs call for teachers prepared to assume responsibilities for

Health and Physical Education in  
Elementary Schools

Health Education in High Schools  
and Colleges

Physical Education in High Schools  
and Colleges including:

Sports	Aquatics	Conditioning
Dance	Camping	Recreation

### CAMPING AND OUTING

Marked growth of the camping movement offers opportunities for leadership in

Day Camps  
Municipal Camps  
School Camps  
Private Camps  
Organization Camps  
Community Outings  
School Outings  
Youth Hostels
