ENROLLMENT FOR SPRING ANNOUNCED

Officials at TWU have announced a moderate decline in enrollment of 420 students -- or 4.5 percent -- compared to spring 1997, based on 12th-day class figures, which will be reported to the Texas Higher Education Coordinating Board. (The numbers remain preliminary until the reported is approved by the board later during the semester.) Total enrollment for the spring 1998 semester is 8,861 students at TWU's Denton, Dallas and Houston campuses.

The spring enrollment decrease is consistent with the 4.4 percent drop in numbers last fall, according to David Peat (enrollment management). "Often, spring enrollment mirrors results from the fall," said Peat. "The decline was expected. However, many of our enrollment management and recruitment activities from this year should help bring students to TWU during the fall 1998 and spring 1999 semesters." He added, "I am excited that we are seeing an increase in the number of full-time undergraduate and graduate students. Our decrease is apparent in the number of part-time students enrolled. Naturally we wish to see an increase in our enrollment and will focus our efforts on student recruitment and retention."

For the spring 1998 enrollment, undergraduate enrollment (full- and part-time) comprises 4,852 students, or 55 percent; graduate enrollment (full-and part-time) is 4,009, or 45 percent. A total of 7,981 women (or 90 percent) and 880 men (or 10 percent) are attending classes on all campuses. Minority enrollment remains essentially unchanged at 25 percent -- a percentage that is one of the highest among Texas public colleges and universities: 12 percent African American (1,085 students); 8 percent Hispanic (682 students); 4 percent Asian (394 students); and 1 percent Native American (53 students).

WELLNESS CENTER OFFERS SWIMMING, WALKING, RACQUETBALL

Members of the TWU Wellness Center now will be able to use three areas in the university's newest building, Pioneer Hall. Beginning Mon., Feb. 16, the center's members will have access to the new indoor pool and water aerobics classes, the walking/jogging track and racquetball courts in the building.

"We are pleased to offer swimming and water aerobics once again to our members," said Dr. Linda King (Wellness Center). "I know that they also will enjoy the suspended walking/jogging track and the racquetball courts."

The TWU Wellness Center will schedule specific times for water aerobics and swimming, as well as use of the track and racquetball courts. The new indoor pool features eight lanes, the walking/jogging track

Prostitutes, pimps, convicts and cops all serve as subject matter for the material, which will be sung by an ensemble cast comprising TWU graduate students Ron Cyphers and Chase Perrett, and undergraduates Brooke Evans, Thomas LeGalley, Gina Miller, Paul Munson, Brie Scolaro, Sonya Worden and Danu Uribe. Dr. Mary Lou Hoyle (performing arts, drama) directs *Jacques Brel*, while TWU faculty member Stuart Younse serves as musical director and graduate student Molly Faulkner handles choreography.
